IMPACT OF IOT FLIGHT DISRUPTIONS

The many recent flight disruptions have caused considerable impacts to IOT residents. Reliable air services are essential for our community and I understand the consequences extend well beyond travel inconvenience.

Safety is, of course, paramount and we acknowledge that Qantas needs to make decisions on safe flight operations based on weather and other conditions.

I am seeking an urgent meeting with Qantas to discuss the recent disruptions and measures being taken to improve service reliability as we approach the wet season and upcoming school holiday period.

It is important that the community has confidence in the air services it relies on, and that these concerns are heard and appropriately addressed.
