

The Honourable Anthony Albanese MP
Minister for Infrastructure, Transport,
Regional Development and Local Government
PO Box 6022
House of Representatives
Parliament House
CANBERRA ACT 8602

Tyabb, 16th August, 2008

Dear Minister,

National Aviation Policy Review

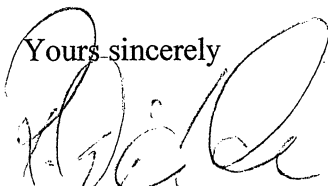

I am one of two Council nominated members of the Tyabb Community Reference Group (CRG), a liaison group setup by the Mornington Peninsula Shire Council do deal with lingering and in recent years escalating issues arising from the operations of Tyabb Airfield.

The Tyabb & District Ratepayers Group (TRG), also represented at the CRG with two members, has made a submission to the National Aviation Policy Review (dated 15th August, 2008), which has been circulated and its content discussed with the CRG on various occasions.

I have reviewed the TRG submission to the Minister and find it representative of many of my own observations and experiences. As such I support the TRG submission for consideration by the Ministers Policy Review Panel.

Communities, of which Tyabb is only one representative example, are in urgent need for proper and enforceable regulation regarding the operations and environmental impacts of small uncontrolled airfields and I respectfully urge the Minister to address such matters as part of the National Aviation Policy Review.

Yours sincerely

Rainer Dittrich
