Subject: night curfew - canberra airport

Dear Sir,

Public submission for the development of a National Aviation Policy:

I would very much like to register my concern and vote for a night curfew to be imposed on the Canberra Airport.

I am a long time resident of Canberra and live in Hackett. This is one of the areas which will be extremely effected by aircraft noise if there is no curfew imposed. A 24 hour unrestricted large passenger and cargo aircraft over Canberra will have a significant impact on the residents of Canberra and our quality to life.

Will this Government insured and pay for double glazing for those residential dwellings affected by noise if this goes ahead?

We will become Sydney's dumping ground for freight. How does the freight get moved and delivered to industry etc - on roads ??? on rail????

I Believe that the community needs to be further consulted on the need for an airport curfew and other safeguards before these proposals are approved and set in to operation.

Yours sincerely

Bev Hogg
