

Brisbane Flightpaths - resident point of view

To whom it may concern,

I am a resident of Seven Hills, and we are in the existing Brisbane Airport flightpath. We constantly get airplane noise (very low and close), and my only hope is that any infrastructure changes take into account that we already get so much plane noise, from very early in the morning, to after dark, most days. Surely alternate routes can be used with any future flight paths, or indeed in any future planning for air traffic.
