Dear Mr Quarmby

RE: Riverstone Football and Sporting Precinct

I refer to the Australian Government’s election commitment to provide funding of $8,000,000 to the Riverstone Football and Sporting Precinct project announced on 19 August 2010. The purpose of this letter is to assure you that the Government is honouring all election commitments. I am pleased to advise that my Department, the Department of Regional Australia, Regional Development and Local Government will be administering this project.

In addition to the funding for your project the Government recently announced $165 million in funding for Community Infrastructure Grants to implement 2010 election commitments. Through these initiatives, the Government will ensure that investments in regional Australia promote sustainable economic growth and benefit the community as a whole. Initiatives such as these demonstrate the Government’s strong commitment to regional Australia.

The Government has structured the delivery of the election commitments to ensure the highest standards of public accountability and transparency are applied to decisions about funding election commitment projects.

You will be contacted by a representative from my Department shortly to discuss the process and to outline your and our responsibilities to allow your project to commence as quickly as possible. To assist us in this process, we will be seeking further information regarding your project. Please be advised that you will receive requests for information throughout this process and I encourage you to work with the Department in finalising outstanding matters quickly.

Dear Minister

Thank you for your letter 6 December 2010, seeking my approval of the guidelines for the implementation of the Community Organisation Infrastructure Grants and Community Cultural Development Grants and three one-off capital projects the subject of election commitments.

I consider that the proposed grant guidelines are not sensitive or high risk and that you should approve the guidelines based on a risk assessment by your Department. However, I consider that some sections need to be clearer, particularly in respect to the criteria value for money (Attachment A highlights suggested amendments to achieve this). You may also like to revise the title to that of the measure published in the Mid-Year Economic and Fiscal Outlook document - “Community Infrastructure Grants”

I note that the Riverstone Football and Sporting Precinct Community Infrastructure project is subject to 2011-12 Budget consideration and should not be included in the Guidelines until confirmed in the Budget.

Yours sincerely

Penny Wong
Guidelines for Community Infrastructure Grants

1. Introduction and Objective

As a result of announcements made during the 2010 Federal Election to contribute funding to the proposed projects of Local Government and community organisations the Australian Government is establishing the Community Infrastructure Grants (CIG) program.

Grants made under the program will be towards projects involving the construction and upgrade of local sport, recreation and community infrastructure. Those projects eligible for consideration of funding under the program are listed in Attachment A (Current Attachment: A becomes Attachment B). The proposed projects would provide important community and social infrastructure projects identified by local communities as priority investments for their regions.

Funding of $m (final dollar value of projects to be administered) towards this program was announced in the Mid-Year Economic and Fiscal Outlook 2010-11 under measures:

Community Infrastructure Grants;
Mariners Sporting Campus; and
Townsville Entertainment Centre.

The provision of funding is conditional on proponents of projects entering into contractual arrangements with the Commonwealth (represented by the Department of Regional Australia, Regional Development and Local Government). The Funding Agreement (contract) is a legally enforceable document which clearly defines the obligations of both parties. Projects managed by or through a State or Territory Government may be subject to the National Partnership Agreement to Support Local Government and Regional Development with an Implementation Plan for the project. The Guidelines will assist proponents in providing advice to Government so that decision makers are able to determine whether the project is an efficient, effective and ethical use of public money. These Guidelines will also assist proponents meet the Funding Agreement’s (contract)/ Implementation Plan requirements.

3. Eligibility

Only projects identified by the Australian Government will be considered under these guidelines. The proposal must match the intent of the election commitment. The proponent must be a legal entity and must have an Australian Business Number (ABN) or an Australian Company Number (ACN) to receive funding under the programs. All projects will need to demonstrate that the funding is an efficient, effective and ethical use of Commonwealth monies.

6. Assessment

Projects will be assessed by the Department of Regional Australia, Regional Development and Local Government (the Department). Funding approval will be made by the Minister
for Regional Australia, Regional Development and Local Government or Delegate, following advice from the Department.

The assessment will be based on information provided in the proposal documents. The assessment will include an assessment of outcomes, the project’s viability and the organisation’s ability to manage the project during delivery and after completion. The Department will also undertake a risk analysis of the proposal which may include an assessment of the financial and project viability (Independent Viability Assessment) by an appropriately qualified external consultant engaged by the Department. This will ensure the risks associated with the viability of the proponent and the project are managed.

Projects will be assessed against the following criteria:

- the project is consistent with the election commitment;
- the outcomes that will be achieved;
- the project’s viability;
- the proponent’s viability;
- the project’s sustainability; and
- the project’s value for money.

These criteria are discussed in more detail below.

- **Project**
  The project needs to be that identified in the announcement of the election commitment.

- **Outcomes**
  Proponents will need to provide a description of project outcomes. For example, outcomes might include:

  > An increase in employment including training opportunities and apprenticeships or involvement of persons with disabilities, Indigenous or disadvantaged Australian’s in the project’s delivery;
  > Economic development opportunities;
  > Improved community services;
  > Expansion of infrastructure to service a larger portion of the community;
  > or
  > Upgrades to community facilities which result in community benefits or an increase in community capacity and utilisation.

Proponents should provide a statement, with supporting evidence where available, on what the project will achieve, what the ongoing community benefits will be and what the level of need is for the project in the community. This information will be taken into consideration in the assessment of value for money for the Australian Government and in developing the performance indicators which will be used to monitor the project and ensure its completion.

- **Ability to complete project on time and within budget**
  Proponents will need to provide details of project plans including key milestones, leading to project delivery dates and outline risks to the achievement of those project plans and how they will be mitigated, including any cost overrun.
Proponents may need to be able to demonstrate experience in the delivery of projects, in particular project management and reporting.

- **Organisational and financial capacity**
  Some of the types of information that may be required as part of this assessment depending on the status and experience of the proponent organisation includes:
  > audited financial statements (i.e. balance sheet, profit and loss statement, cash flow statement, notes to the accounts) for the most recent three financial years
  > delivery of contracts with other public funding bodies,
  > evidence of capacity to comply with public and workplace safety laws,
  > details of relevant organisational staff and previous experience/capacity with the management of projects of a similar size and nature to the proposal,
  > evidence of current insurance cover or ability to obtain such cover,
  > current licences where these are appropriate, and
  > the project is not inconsistent with existing Commonwealth policy.

- **Sustainability**
  It is expected the infrastructure will be maintained into the future and proponent will need to demonstrate how the project will be managed and maintained to provide continued long term benefits to the community.

- **Value for money**
  Proponents promote the use of resources in an efficient, effective and ethical manner; with the project undertaken in an accountable and transparent manner. The project's documentation needs to be specified logically, clearly articulated and comprehensive which will enable the proper identification, assessment and comparison of the costs and benefits, and risks.

  It should outline proposed method for delivering the project. Generally, value for money requires that the project can be delivered at a reasonable whole-of-life cost which may involve open tendering in procurement or mechanisms to ensure competitive delivery with project delivery arrangements comparing favourably with comparable benchmarks for the activities being undertaken. The assessment may also include consideration of factors such as:
  > fitness for purpose;
  > the performance history of the proponent;
  > the risks;
  > the flexibility to adapt to possible change of the project according to risks; and
  > the evaluation of risk mitigation options.
. World Class Football Centre of Excellence for the West

Anthony Albanese, Ed Husic, Michelle Rowland and Susan Templeman posted Thursday, 19 August 2010

A re-elected Gillard Labor Government will build a World Class Football and Sporting Precinct in Riverstone.

The new state-of-the-art $70 million facility – which will include nine purpose built quality football fields – will be a training ground for the next generation of Socceroos.

The Gillard Labor Government will partner with Football NSW to build the new facility, which will give kids across greater Sydney the opportunity to learn new skills and get involved in what is truly an international game.

Minister for Infrastructure Anthony Albanese said if re-elected, Federal Labor would contribute $8 million to help make Football NSW's project a reality.

"Sydney is the heartland of football in Australia," Anthony Albanese said

"Six of our biggest Socceroo stars – Harry Kewell, Tim Cahill, Lucas Neill, Brett Emerton, Mark Schwarzer and Jason Culina – grew up playing on fields in Sydney. We hope our investment can continue that production line."

The ground-breaking project is expected to include:

- Nine purpose-built, quality football fields, with the ability to expand to 15 fields in the future;
- A potential stadium venue with a capacity of around 3,000 spectators, designed to showcase major Football NSW events;
  - An indoor swimming pool;
  - A multi-purpose indoor sporting centre consisting of two international sized Futsal courts;
  - A physiotherapy and sports medicine centre;
  - A gymnasium;
  - The Football NSW head offices;
  - The potential for Tennis NSW offices and courts;
  - A Football College and lecture rooms;
  - A club and function centre; and
  - Accommodation facilities.
The announcement was made today by Minister for Infrastructure, Anthony Albanese, alongside the Federal Labor candidates for Greenway, Michelle Rowland, Chifley, Ed Husic, and Macquarie, Susan Templeman.

"This is a major infrastructure project with regional significance," Anthony Albanese said.

"The new Football Academy will support a pathway for youngsters here in Western Sydney and beyond."

Federal Labor candidate for Greenway Michelle Rowland said the project would help to encourage kids to enjoy an active, healthy lifestyle.

"This is a growing sport across all age levels and genders, so this new facility will come not a minute too soon," she said.

"Families in Riverstone and beyond can expect to enjoy the benefits of the range of facilities that will be on offer, from soccer to sports medicine to the gym and function centre."

Federal Labor Candidate for Macquarie Susan Templeman said that importantly, the project will allow Football NSW to expand its community and social programs.

"Local schools and community groups will also be able to make use of the excellent new facilities," she said.

Federal Labor Candidate for Chifley Ed Husic said that the project would deliver huge investment in the Blacktown region and beyond.

"The new Football and Community Sporting Precinct is great news for the region’s economy, great news for local families and great news for the development of a range of sports in Sydney," he said.

Funding for this contribution will be fully offset over the forward estimates, consistent with Federal Labor’s commitment to return the budget to surplus in 2013, three years ahead of schedule.

1. **OVERVIEW**

1.1 **Introduction**

1.1.1 **Football NSW**

Football NSW is Australia's largest state based sporting organisation with over 280,000 registered players (including registered Futsal players) and approximately 700 Football clubs under its banner. Recent Australian Sports Commission participation figures indicate, across NSW as a whole, football participation is experiencing three times the growth of its major competitor in rugby league with over 281,000 participants.

Football NSW is a member of the national governing body, Football Federation Australia (FFA). Football NSW is charged with the responsibility for governing football (soccer) and Futsal within New South Wales (NSW), with the exception of the northern regions of NSW which is governed by Northern New South Wales Football.

Football NSW is responsible for providing competition playing structures, coaching and development services and sport specific educational programs for junior and senior, male and female players from 36 local Association branch based competitions, through to semi-professional and professional levels. Football NSW is also responsible for the Technical and Game development as well as all facets of Corporate Governance which includes Risk Management and adherence to all Football NSW policies.
Targeted at Under 14, 15 and 16 Boys, this program identifies talented football players who continue to play with their chosen club or team, as well as train intensively with Football NSW instructors.

This scholarship program is conducted in conjunction with the Johnny Warren Football Foundation and provides the underpinning development program for the NSW State teams in certain age groups.

This program is designed for players to continue to play with their chosen club team as well as train intensively with Football NSW during the off-season. The targeted age groups are Boys U11 and U12; Girls U11, U12, U13 and U14.

The Academy is a dynamic and highly motivating technical football program aimed at boys and girls aged 6-10 years of age. The Academy focuses on individual technical development as well as small group play that will guarantee improvement for players of all ages.

The most senior men's state league competition is currently known as the "New South Wales" Premier League and the most senior female state competition is currently the "Arrive Alive" Women's Premier League.

Football NSW is also responsible for the development of the sport of Football within schools across NSW, for skills development programs such as talent identification, and for development of high performance athletes through the NSW Institute of Sport and other elite development programs that are endorsed by the code's governing body.

Football NSW vision is to be regarded as the benchmark sporting organisation in Australia and strives to this ambition by:

- Creating development programs that attract new players, coaches, referees and fans.
- Creating environments and programs that develop the full potential of NSW football talent.
- Building an environment that attracts the best partners and stakeholders.

1.1.2 Riverstone Football and Community Sporting Precinct

To replace its ageing infrastructure at Valentine Park and to cater for the future development of Football in NSW, Football NSW are currently in the process of planning for the development of a new administration, training and community football facility at Riverstone in the City of Blacktown, North-West of Sydney.

The proposed development will see a state of the art sporting complex developed within the heart of the North West Growth Sector. The complex will see the inclusion of a full range of sporting facilities to ensure the successful development of future football stars, as well as provide facilities for the community.

In what has been seen as a ground breaking development for football in Australia, Football NSW is proposing to build a new $76 million state of the art sporting complex at Riverstone. A number of modern facilities will be showcased at the proposed Riverstone facility including:

- Multiple high quality football pitches and a boutique 3000 seat capacity stadium.
- Health and wellness facilities including swimming pool and gymnasium.
- Multi-purpose indoor sports centre.
- Educational facilities including sports college.
- Allied health and sports medicine facilities.
- Administration offices including office for Football NSW and Tennis NSW.
- Hotel accommodation and function facilities.

With government support, there is a very real opportunity to create a well integrated sporting, recreational and community facility at Riverstone that will be a benchmark, both in Australia and overseas.
2. VISION

The development of the Riverstone Football and Community Sporting Precinct is part of Football NSW’s vision to create a world class football, sporting, educational, health and community precinct to cater for the development of the sport into the future.

The following key outcomes will help realise the vision:

1. A significant expansion of Football NSW’s successful football development and education programs.
2. Expansions of Football NSW’s community and social programs in line with government priorities in health and education.
3. Creating a facility that supports a pathway of Australian football, from junior level to the elite competition.
4. Providing multi-purpose facilities for the local primary schools, local community groups, local sporting clubs and local government programs.
5. Providing facilities and support for the people of the Blacktown Region.
6. Generating economic activity and employment outcomes, both during construction and ongoing with the operation of the facilities and expanded community programs.
7. Constructing accessible health/education/accommodation facilities in a growth region.
8. Provision of additional football and community facilities to expand Football NSW’s community programs.

Football NSW seeks financial support from Federal, State and Local Governments and other stakeholders to help realise its vision for Football within NSW and the development of the Riverstone Football and Community Sporting Precinct.
3. PROJECT DESCRIPTION

3.1 Proposed Works

In what is seen as a ground breaking development for football in Australia, Football NSW is proposing to build a new $76 million state of the art community sporting, education and wellness complex at Riverstone. This unique development has the potential of incorporating the following facility components:

- Nine purpose built quality football pitches, with the ability to expand to 15 fields in the future if necessary.
- A potential boutique stadium venue with a capacity of around 3,000 spectators, designed to showcase major Football NSW events.
- Indoor swimming pool.
- Multi-purpose indoor sporting centre consisting of two international sized Futsal courts.
- Lecture rooms.
- Physiotherapy and sports medicine centre.
- Gymnasium.
- Football NSW offices.
- Licensed club and function centre.
- Hotel accommodation.
- Football College.

In addition the proposed development fits very much in line with the vision set within the planning and development strategies at a State and region level, including but not limited to:

- Game Plan 2012 - NSW Sport and Recreation Industry Five Year Plan.
- Blacktown City 2025 – Blacktown City Council.
- Blacktown City Council – Wellness through Physical Activity Policy – Blacktown City Council.
- Blacktown Local Environmental Plan 1988 – Blacktown City Council.
- Sydney Regional Environmental Plan 31 – Regional Parklands (SREP 31).

The proposed development has been put together following extensive consultation with key stakeholders with respect to:

- Facility development options/needs.
- Consulting with current, potential and alternative users groups and the local community.
- Preparation of a feasibility/business case (including identifying business and management models).
- Preparation of a detailed business plan which identifies potential revenue and expenses associated with the development of the facility.
Football NSW "Community Football and Sporting Precinct" concept provides for community football, sporting, health and educational facilities. The facility will include unique sport, health and educational facilities that will be available to the local community. These facilities will include:

- **Improved Administration Facilities.** A new administration building will provide Football NSW, Tennis NSW and local community sporting groups with state of the art administration facilities and services.

- **Sportshouse.** Included in the Administration will be a "sportshouse" which will provide a home for Football NSW and Tennis NSW along with local sporting groups, such as the local football association and the academy of sport. The "sportshouse" will be a unique shared environment that will provide the local sport groups with professional accommodation and associated services, while also offering sport administration mentoring through the professional administration of Football NSW and Tennis NSW. The "sportshouse" will be available to sporting and community groups on a permanent, regular and casual basis.

- **Flexible Space.** The incorporation of "flexible space" into the administration facilities will provide space for educational, program delivery and event/competition purposes. Facilities will include a lecture theatre learning environment, as well as flexible learning and teaching spaces.

- **Nine purpose built quality football pitches.** The facility will include a combination of nine international standard grass and synthetic football pitches with the ability to expand to 15 fields in the future. The pitch facilities will also be available for other community sporting organisations including little athletics, rugby league and rugby union.

- **A boutique football stadium.** One of the synthetic football pitches will include boutique stadium facilities with a capacity of around 3,000 spectators. Designed to showcase major Football NSW and community football events the facilities will be open to the community for use for local, regional and state championships finals and tournaments, providing a unique State sporting venue. As with the pitch facilities the boutique stadium will also be available to other sporting organisations for events.

- **A-League Facilities.** Football NSW is in preliminary negotiations with the newly announced A-League franchise, the West Sydney Rovers, to provide a professional permanent training base for the team and a competition base for A-League pre-season, youth league and women's A-League games.

- **Eight to ten "five a side" football pitches.** These are multi-sports courts primarily used for football but will also be used for sports such as netball etc. Five a side football is the fastest growing sport in Europe and participation will be community based.

- **Heated Indoor pool and Hydro therapy centre.** This will include usage for learn to swim classes and will be utilised heavily by the local community, including by people and athletes with disabilities, the aged community and for those recovering from injury.

- **Allied Health and Sports Medicine Centre.** The facility will include a state of the art allied health centre with specialist practice in sports medicine and wellness. The facility will cater for a growing health and wellness related need in the region while also providing unique specialist sports medicine services to Football NSW and Tennis NSW athletes, facility attendees and the general community.
• **A 40 room accommodation facility.** A 3.5 star accommodation/hotel facility has been identified as a need for the rapidly developing area. Football and tennis will utilise this for any visiting international teams, interstate teams of any sport and local tournaments, including pre-season use. Football NSW already has an established model for this facility having operated a similar accommodation business at its current facility at Valentine Park. Football NSW intends to extend and grow this service through higher quality facilities and growing the market for interstate and international travelling teams. Use will also be integrated with the sports college and will extend into local private schools and Universities. This will enable the venue to act as a unique one stop destination for travelling football and other sporting teams, including as a World Cup training destination, should Australia's bid be successful.

• **Football NSW and specialist retail sports store.** Football NSW already operates a significant retail operation for its member clubs and athletes. The Riverstone facility will enable Football NSW to extend this operation into a full sporting “super store” as a major wholesale and retail supplier of sporting goods and apparel to the broader sporting and school sectors. Economies of scale will enable Football NSW to offer sporting goods at discounted rates to nominated schools and clubs with specific socioeconomic disadvantages thereby providing sporting opportunities to children who would otherwise miss out.

• **Media Centre.** The Riverstone facility will include a state of the art sporting and educational multimedia centre. The centre will include the latest in audio-visual and communication technology that will be made available to local school and community organisations, and the sports college.

• **Tennis Facilities.** Tennis NSW are to relocate their administration into a new 500 sqm administration facility co-located with Football NSW at Riverstone. 20 new world class tennis courts will also be constructed on site, which along with sharing of Football NSW elite training facilities, will create a NSW State Centre of excellence for Tennis.

• **Function, Reception and Event Centre, including a licensed club.** In conjunction with a commercial partner Football NSW are to develop a unique community events centre that will complement the existing facilities in the region. The facilities will provide access for seminars, professional development courses, coaching courses, and local functions as well as providing for a whole range of community groups and their activities, function and conference services and facilities and food and beverage services to the surrounding facilities and the region. The licensed club to be established on site will provide much needed revenue to subsidise operation of the precinct while also providing revenue to be reinvested back into the community and football.

• **Sports College.** The Riverstone Football and Community Sporting precinct will include a state of the art specialist sporting college. The sports college will be aligned with Football NSW and Tennis NSW and provide specialist tuition for aspiring football and tennis athletes, as well as athletes from other sports. The college will be available upon application to students across NSW, with free scholarship positions made available to selected athletes in socioeconomically disadvantaged areas. The college will cater for up to 800 students from years 3-12 and will include some boarding facilities.

• **Indoor Sports Centre.** The Riverstone facility will include a multi-court indoor stadium, including Futsal facilities and will provide the Riverstone region, including its clubs and schools, with a badly
needed Indoor community sports centre. The facility will be for Football NSW Futsal competitions while also being used for local basketball, badminton, netball, table tennis and similar indoor sports.

- **Health Club.** Aligned with the allied health, sports medicine and aquatic facilities will be a health club. The club will provide elite athletes, facility users, hotel users and the general community with quality health and fitness facilities and services.
3.2 Location

The Football NSW Football and Community Sporting precinct is to be located in newly rezoned land in Riverstone West in the City of Blacktown, approximately 35kms from the Sydney CBD.

The Riverstone West Precinct is one of 15 precincts as part of the North West Growth Centre. The Growth Centre is approximately 10,000 hectares and will contain about 70,000 new dwellings for 200,000 people. The Growth Centre is a designated growth area for Sydney and forms a key platform of the NSW Government residential expansion plans for Sydney and surrounding areas.

The Riverstone West Precinct will provide over 12,000 new jobs in Sydney's North West has already been planned and rezoned for development. Riverstone West Precinct is about 285 hectares, located to the west of the Richmond Rail Line between Riverstone and Vineyard stations, and extending west to Eastern Creek. The site currently is home to rural and industrial uses, and includes a small number of residences.

The development of the estate that the Football NSW Sporting Precinct will be located in is a major new industrial and residential estate. The development will include new roads and public transport infrastructure that will not only benefit estate users but also the broader Riverstone community.

3.6 Project Timing

Football NSW has significantly progressed the project, including purchasing the land. It is expected that the project will commence construction in early 2012 and be completed in 18 months.

Government funding is able to be spread over multiple financial years with Football NSW also able to stage the project with certain non-core elements delivered as part of future development stages.
4. WHY THE PROJECT IS IMPORTANT

4.1 Identified Need

Football NSW with over 280,000 registered football players is the largest member based sporting organisation in Australia and is currently hamstrung in its development due to a lack of facilities and the lack of a high quality state training base. Football NSW's existing facility at Valentine Sports Park in Glenwood has been unable to cope with increasing demands of community and elite football in NSW and hence Football NSW is in need of a larger, upgraded facility.

The Riverstone facility will also provide badly needed football facilities in one of the quickest growing regions of not only NSW, but Australia thereby satisfying a growing community football need in this region.

The Blacktown and in particular Riverstone regions are identified growth regions for NSW, with the key demographic information for the region indicating a growing population with increasing community and sporting needs. The increase in population will in the future put significant pressure on already sparse sporting and community facilities in the region.

The Football NSW Riverstone Football and CommunitySporting Precinct will provide long term facility solutions not only to meet the increasing participation in football but also growing needs of community sport and recreation through the provision of:

- multi-purpose sports facilities;
- aquatic and hydrotherapy facilities;
- flexible community space;
- accommodation facilities;
- function and conference facilities;
- and education facilities.

4.1.1 Demographics of the Region

The key demographics statistics of the region relevant to the project are:

- In 2006, the total population of the Blacktown municipality was estimated at 284,301 with this number expected to increase by 25% to 356,652 by 2021.
- There will be a reduction in the proportion of young people and an increase in the proportion of older people from 2006 to 2021.
- Blacktown City's population has increased by 10.4% since 1996, with a staggering 21% increase in population since 1991.
- The population in the Blacktown City LGA is expected to reach 356,653 in 2021, which will represent a 31% population growth from 2006 population of 272,330.
- The Riverstone-Vineyard Area in Blacktown City is one of the regions expected to experience the largest increases in population to 2016. The diagram below shows that the suburbs of Riverstone/Vineyard and Schofields/Rouse Hill are expected to grow by almost 50% to 2021.
The primary household arrangement in the municipality is one family households.

Household Characteristics of the Blacktown City Council
- The following table indicates weekly individual income in the Blacktown City Council in 2006.
- A higher proportion of individuals earn a relatively low income in comparison to the Sydney statistical division and a lower proportion of individuals earn a high income.
- A higher proportion of households receive low incomes and a lower proportion of households receive high incomes.
4.2 Project Rationale

The scoping and design of the facility has been undertaken based on extensive research, demographic analysis and consultation to ensure the facility meets the growing needs of football in NSW and the needs of the developing community in the following ways:

- Multiple grass and synthetic football pitches, a boutique football stadium, as well as "small game" 5-a-side pitches, will provide State, regional and local level football facilities for the growing needs of football in NSW and the Blacktown region.
- Hydrotherapy facilities and accessible flexible community space will cater for the needs of the growing older population.
- Growth in one family households will create greater need for flexible community space, allied health and leisure facilities and contemporary education precincts, all of which form key components of the development.
- The large percentage of residents born overseas emphasises the need for community and sporting facilities that can be used by new Australians as part of their introduction to Australian culture. Football, as the World Game, provides a unique vehicle to integrate new Australians into the Riverstone community.
- Population growth is forecast to continue within the area and consequently, there is likely to be an increasing demand for access to quality sporting and recreation facilities and programs, all of which will be provided as part of the Riverstone development.
- The high number of new households forecasted for the Blacktown City Council highlights the need to develop sport and recreation infrastructure. It is this segment of the population who traditionally participate strongest in sporting activity. It is also these age groups that are likely to be most strongly represented in future growth areas. The Riverstone development will provide sporting and community facilities critical in servicing this growing need.
- Blacktown City Council is likely to have to cater for an increase in the young and very old, with the number of new households estimated to move to the area. The Riverstone development will provide a unique mix of facilities that will cater for all age groups from the very young to the ageing population.
- There is likely to be an increase in the demand for indoor sports within the area due to the growth predicted for the Riverstone, Kellyville Ridge, Schofields, Kings Park, Parklea and Marsden Park areas. In particular, residents from the new residential developments may increase the demand for casual use and community competition opportunities.
- Prospective users may have a lower capacity to pay for programs and services at the facility due to the low household and individual incomes. The co-location of sporting facilities and community facilities, along with other commercial facilities will allow the facilities to be made available to the public in an efficient and cost effective way.
- There may be a demand for badminton and table tennis in the area due to the popularity of both sports in the Asian community and the high proportion of residents from the Philippines. The flexible sports halls as part of the Riverstone Precinct, although primarily designed for Futsal, shall be multi-purpose and be able to be utilised for multiple indoor sports, including badminton and table tennis.
- Participation is highest for organised and non-organised sport in the 15-17 age cohort and consequently, this age group will need to be a key target group for programs and services delivered to the local community.

### 4.2.1 Community, Health and Social Programming

In addition to various sport related benefits the Riverstone Football and Community Sporting Precinct will deliver an expanded range of educational, health, social and youth programs that will be aimed at addressing some of the regions key health, social and financial indicators. The Riverstone Football and Community Sporting Precinct and associated programs will allow Football NSW to significantly expand its community reach, and interact directly with residents in the local region to use sport and in particular football as a vehicle for social change. Some of the key regional community, health and social issues that Football NSW through the new Riverstone facility will be aiming to influence include:

- **Domestic Violence.** Blacktown has the highest rate of domestic violence in Sydney. Recently released Bureau of Crime statistics and research reports show the Blacktown region had the city's highest incidence of domestic violence-related assault by head of population. This figure is about 60 per cent higher than the state-wide per-person average. Football NSW, in conjunction with key community agencies, will be using the facilities and its key players, in mentoring programs, targeted at reducing the incidences of domestic violence. Football NSW aims to play a key role in terms of conveying positive messaging around domestic violence.

- **Non-English speaking.** Over 50% of residents were born outside of Australia with 28% of these people born in non-English speaking countries. Football NSW shall use football as a means of introducing "new Australians" and "non-English speaking" Australians to Australian culture ultimately providing an introduction to the English language.

- **Indigenous population.** The Blacktown region has the highest proportion of indigenous people in the Sydney metro area. As with the non-English speaking population, Football NSW will use the world game as a means of positive interaction with the indigenous population.

- **Unemployment.** The region has an unemployment rate of greater than 7% with 25% of these unemployed people in the 25-34 years age group. The development of the Riverstone Football and Community Sporting Precinct shall create a significant number of new jobs both in the construction phase and on an ongoing basis in the operation of the facility.
- **Education.** The Blacktown region has a relatively high incidence of low educational attainment. The Sports College will provide a significant number of educational opportunities to both aspiring athletes of the region along with athletes across NSW. Football NSW intends to offer a number of scholarships to local athletes, including indigenous and new Australian athletes.

- **Social engagement.** The population of the Blacktown municipality is quite isolated from greater society, with more than one quarter of the population engaging in social gatherings less frequently than once a month. The Riverstone Football and Community Sporting Precinct will provide flexible community space which will be available to the local community for various social and community gatherings.

- **Stress.** One sixth of the population of the Blacktown region report being under “very high” or “high” levels of psychological stress. Sport and recreation pursuits have been identified as a means of controlling stress, with the Riverstone Football and Community Sporting precinct providing significantly increased opportunities for sport and recreation activity and therefore stress release.

- **Health and Smoking.** Almost 50% of the region’s population were overweight or obese with less than half the population meeting daily consumption of fruit recommendations. Knowledge of good nutrition in the region is also poor. The population of the Blacktown region has a significantly higher smoking rate than the population of NSW. Football NSW will use the facility to promote community health and non-smoking messages as part of its broader commitment to the local community.

Football NSW will be using the Riverstone Football and Community Sporting Precinct to establish and expand sporting and community programs in the following areas:

- Domestic Violence.
- Youth programming.
- Health education with a focus on preventative health.
- Immigrant and non-English speaking education programming.
- Indigenous education sporting opportunities.
- Education with a link to sport through the sport college.
- Social programming and engagement through provision of flexible community space and sport mentoring.
- Stress relief through provision of leisure activities.

The development will provide a unique model for the future delivery of joint elite and community facilities that link with health, education, social and youth sectors.

The table below illustrates the reach of the programs and services that will be offered at the Riverstone Football and Community Sporting Precinct.
Project and Facility Usage of the Riverstone Football & Community Sporting Precinct will include (Annually):

4.2.3 Sport Business Model
The Riverstone Football and Community Sporting Precinct will provide a unique and sustainable community based business model for NSW Football that will ensure the long term viability of football in NSW while also ensure ongoing community, health, education and social benefits to the broader community.

The Riverstone Football and Community Sporting Precinct facility provides the opportunity for Football NSW to make a significant contribution to the Federal Government's proposed directions for sport, health and education.
4.2.4 Local Schools
The proposed Riverstone Football and Community Sporting Precinct will provide unique football and community facilities that will be available daily to local primary and secondary schools. The facilities will accommodate current needs, but more importantly will provide facilities for the growing population of the region over the next 20 years.

4.2.5 Environment
The facility will incorporate the latest in environmentally sustainable design and water and energy savings practices.

Some key design initiatives will include:
- Maximise the reuse of wastewater through greywater and rainwater harvesting for use on grass pitches.
- Implementation of solar boosted hot water which will reduce CO2 emissions.
- 80% waste diversion from landfill target in demolition;
- Maximisation of bicycle parks and facilities;
- Motion detector and daylight lighting control;
- Thermally efficient building envelope;
- Efficient VRV zoned aircon;
- Water efficient appliances shower fittings and toilet flushing;
- Green work practices training.
5. **FOOTBALL NSW ECONOMIC CONTRIBUTION**

Key economic figures in terms of Football NSW contribution to the NSW economy include:

- With over 280,000 registered players and growing and approximately 700 Football clubs under its banner, Football NSW is Australia largest state based sporting organisation.
- Total membership numbers for 2009 season comprised:
  - 257,216 outdoor players;
  - 17,267 indoor players;
  - Approx 4,800 referees;
  - 36 Associations; and

- Football NSW employs in excess of 248 staff plus 68 referees in paid positions.
- Football NSW's current direct expenditure into the local region is in excess of $4 million.

These conclusions are based on current activity and would be expected to increase with the construction of the Riverstone Football and Community Sporting Precinct. In particular, improved economic contributions through, turnover and employment from the new businesses in the precinct will include:

- **Sports School**
  - Approximately 50 new jobs in the region.
  - 800 new student positions.
- **Licensed Club and Function Centre**
  - Revenue between $2.4 - $4 million
  - New jobs providing additional annual wages of between $800,000 and $1,100,000.
  - Other indirect expenditure in the region of approx $1,000,000.
- **Accommodation**
  - Approximately 30 new jobs in the region.
- **Sports and Recreation Facilities**
  - Approximately 20 new jobs to the region.
6. PROJECT OUTCOMES

The development of the Riverstone Football and Community Sporting Precinct will deliver long lasting physical, social and economic outcomes for football, NSW, the Blacktown region and local sporting clubs and community groups – in particular, marginalised community groups.

These outcomes include the following:

1. **Genuine Support and Improved Delivery of Government Priorities**
   Football NSW already undertakes programs that provide genuine support of Federal and State Government priorities in health, education, social awareness and Indigenous affairs, with a particular focus on Indigenous and new Australians. The Riverstone Football and Community Sporting Precinct will significantly enhance Football NSW and its partners ability to “roll out” these programs.

2. **Quality Recreation Facilities**
   The project will create innovative and contemporary educational facilities incorporating the latest in information technology classrooms and indoor recreation/assembly spaces for local schools and the community. This will alleviate existing demands on existing school and community facilities and importantly will provide for future demand. The integration of the Sports College into the Riverstone Football and Community Sporting Precinct is consistent with the Government’s objective of ensuring that school facilities meet educational needs into the future.

3. **Creation & Access to Quality Community Centre**
   Local Government has identified the need for increased facilities to support recreation and community groups and to cater for the needs of a growing population. The creation of the Riverstone Football and Community Sporting Precinct will meet this demand and provide opportunities for Football NSW and local government to better co-ordinate and more efficiently run programs that have similar objectives.

4. **Secures Long Term Future of Football NSW and Football in NSW**
   This project will provide the facilities needed to secure the financial strength of Football in NSW and of the States governing body, Football NSW.

5. **Creation of Integrated Recreational Facilities**
   The Riverstone Football and Community Sporting Precinct will serve as a facility that will bring people and communities together. It will be an integrated precinct servicing the needs of many, ranging from professional sport through to those who might be at risk or in a position of disadvantage.

6. **Creation of Employment Opportunities**
   Jobs will be created during the construction phase of the project. In addition, the development will provide Football NSW with the opportunity to significantly increase the reach of its programs and activities. This will require a significantly increased investment in qualified staff such as: teachers / education experts, indigenous experts, multicultural experts, social workers and community workers.
7. WHO WILL BENEFIT?

The completion of the Riverstone Football and Community Sporting Precinct project will benefit the following people and/or organisations:

- Local Primary and Secondary Schools and students;
- Local sporting clubs;
- Schools, children and youth who undertake or experience community programs
- Indigenous community;
- New Immigrants and non-English speaking Australians

8. COMMUNITY LEADERSHIP

8.1 Leadership

Football NSW already plays a key community leadership role and will be aiming to extend this role by effectively using the Riverstone Football and Community Sporting Precinct to engage with the people or community with needs.

Football NSW’s commitment and leadership in the community will be demonstrated in many ways:

- An organisational mission that is dedicated to developing the community.
- An intent to work with government, non-government, corporate and community-related organizations.
- Strong programs supported by proper training of the people (players) who deliver the programs;
- Use of Football NSW’s brand and profile to initiate events to raise awareness on community issues.

3. **PROJECT DESCRIPTION**

3.1 *Proposed Works*

In what is seen as a ground breaking development for football in Australia, Football NSW is proposing to build a new $76 million state of the art community sporting, education and wellness complex at Riverstone. This unique development has the potential of incorporating the following facility components:

- Nine purpose built quality football pitches, with the ability to expand to 15 fields in the future if necessary.
- A potential boutique stadium venue with a capacity of around 3,000 spectators, designed to showcase major Football NSW events.
- Indoor swimming pool.
- Multi-purpose indoor sporting centre consisting of two international sized Futsal courts.
- Lecture rooms.
- Physiotherapy and sports medicine centre.
- Gymnasium.
- Football NSW offices.
- Licensed club and function centre.
- Hotel accommodation.
- Football College.

In addition the proposed development fits very much in line with the vision set within the planning and development strategies at a State and region level, including but not limited to:

- Game Plan 2012 - NSW Sport and Recreation Industry Five Year Plan.
- Blacktown City 2025 – Blacktown City Council.
- Blacktown City Council - Wellness through Physical Activity Policy – Blacktown City Council.
- Blacktown Local Environmental Plan 1988 – Blacktown City Council.
- Sydney Regional Environmental Plan 31 – Regional Parklands (SREP 31).

The proposed development has been put together following extensive consultation with key stakeholders with respect to:

- Facility development options/needs.
- Consulting with current, potential and alternative users groups and the local community.
- Preparation of a feasibility/business case (including identifying business and management models).
- Preparation of a detailed business plan which identifies potential revenue and expenses associated with the development of the facility.
Football NSW “Community Football and Sporting Precinct” concept provides for community football, sporting, health and educational facilities. The facility will include unique sport, health and educational facilities that will be available to the local community. These facilities will include:

- **Improved Administration Facilities.** A new administration building will provide Football NSW, Tennis NSW and local community sporting groups with state of the art administration facilities and services.

- **Sportshouse.** Included in the Administration will be a “sportshouse” which will provide a home for Football NSW and Tennis NSW along with local sporting groups, such as the local football association and the academy of sport. The “sportshouse” will be a unique shared environment that will provide the local sport groups with professional accommodation and associated services, while also offering sport administration mentoring through the professional administration of Football NSW and Tennis NSW. The “sportshouse” will be available to sporting and community groups on a permanent, regular and casual basis.

- **Flexible Space.** The incorporation of “flexible space” into the administration facilities will provide space for educational, program delivery and event/competition purposes. Facilities will include a lecture theatre learning environment, as well as flexible learning and teaching spaces.

- **Nine purpose built quality football pitches.** The facility will include a combination of nine international standard grass and synthetic football pitches with the ability to expand to 15 fields in the future. The pitch facilities will also be available for other community sporting organisations including little athletics, rugby league and rugby union.

- **A boutique football stadium.** One of the synthetic football pitches will include boutique stadium facilities with a capacity of around 3,000 spectators. Designed to showcase major Football NSW and community football events the facilities will be open to the community for use for local, regional and state championships finals and tournaments, providing a unique State sporting venue. As with the pitch facilities the boutique stadium will also be available to other sporting organisations for events.

- **A-League Facilities.** Football NSW is in preliminary negotiations with the newly announced A-League franchise, the West Sydney Rovers, to provide a professional permanent training base for the team and a competition base for A-League pre-season, youth league and women’s A-League games.

- **Eight to ten “five a side” football pitches.** These are multi-sports courts primarily used for football but will also be used for sports such as netball etc. Five a side football is the fastest growing sport in Europe and participation will be community based.

- **Heated indoor pool and Hydro therapy centre.** This will include usage for learn to swim classes and will be utilised heavily by the local community, including by people and athletes with disabilities, the aged community and for those recovering from injury.

- **Allied Health and Sports Medicine Centre.** The facility will include a state of the art allied health centre with specialist practice in sports medicine and wellness. The facility will cater for a growing health and wellness related need in the region while also providing unique specialist sports medicine services to Football NSW and Tennis NSW athletes, facility attendees and the general community.
- A 40 room accommodation facility. A 3.5 star accommodation/hotel facility has been identified as a need for the rapidly developing area. Football and tennis will utilise this for any visiting international teams, interstate teams of any sport and local tournaments, including pre-season use. Football NSW already has an established model for this facility having operated a similar accommodation business at its current facility at Valentine Park. Football NSW intends to extend and grow this service through higher quality facilities and growing the market for interstate and international travelling teams. Use will also be integrated with the sports college and will extend into local private schools and Universities. This will enable the venue to act as a unique one stop destination for travelling football and other sporting teams, including as a World Cup training destination, should Australia’s bid be successful.

- Football NSW and specialist retail sports store. Football NSW already operates a significant retail operation for its member clubs and athletes. The Riverstone facility will enable Football NSW to extend this operation into a full sporting “super store” as a major wholesale and retail supplier of sporting goods and apparel to the broader sporting and school sectors. Economies of scale will enable Football NSW to offer sporting goods at discounted rates to nominated schools and clubs with specific socioeconomic disadvantages thereby providing sporting opportunities to children who would otherwise miss out.

- Multi Media Centre. The Riverstone facility will include a state of the art sporting and educational multimedia centre. The centre will include the latest in audio-visual and communication technology that will be made available to local school and community organisations, and the sports college.

- Tennis Facilities. Tennis NSW are to relocate their administration into a new 500 sqm administration facility co-located with Football NSW at Riverstone. 20 new world class tennis courts will also be constructed on site, which along with sharing of Football NSW elite training facilities, will create a NSW State Centre of excellence for Tennis.

- Function, Reception and Event Centre, including a licensed club. In conjunction with a commercial partner Football NSW are to develop a unique community events centre that will complement the existing facilities in the region. The facilities will provide access for seminars, professional development courses, coaching courses, and local functions as well as providing for a whole range of community groups and their activities, function and conference services and facilities and food and beverage services to the surrounding facilities and the region. The licensed club to be established on site will provide much needed revenue to subsidise operation of the precinct while also providing revenue to be reinvested back into the community and football.

- Sports College. The Riverstone Football and Community Sporting precinct will include a state of the art specialist sporting college. The sports college will be aligned with Football NSW and Tennis NSW and provide specialist tuition for aspiring football and tennis athletes, as well as athletes from other sports. The college will be available upon application to students across NSW, with free scholarship positions made available to selected athletes in socioeconomically disadvantaged areas. The college will cater for up to 800 students from years 3-12 and will include some boarding facilities.

- Indoor Sports Centre. The Riverstone facility will include a multi-court indoor stadium, including Futsal facilities and will provide the Riverstone region, including its clubs and schools, with a badly
needed indoor community sports centre. The facility will be for Football NSW Futsal competitions while also being used for local basketball, badminton, netball, table tennis and similar indoor sports.

- **Health Club.** Aligned with the allied health, sports medicine and aquatic facilities will be a health club. The club will provide elite athletes, facility users, hotel users and the general community with quality health and fitness facilities and services.
3.2 Location

The Football NSW Football and Community Sporting precinct is to be located in newly rezoned land in Riverstone West in the City of Blacktown, approximately 35kms from the Sydney CBD.

The Riverstone West Precinct is one of 16 precincts as part of the North West Growth Centre. The Growth Centre is approximately 10,000 hectares and will contain about 70,000 new dwellings for 200,000 people. The Growth Centre is a designated growth area for Sydney and forms a key platform of the NSW Government residential expansion plans for Sydney and surrounding areas.

The Riverstone West Precinct will provide over 12,000 new jobs in Sydney's North West has already been planned and rezoned for development. Riverstone West Precinct is about 285 hectares, located to the west of the Richmond Rail Line between Riverstone and Vineyard stations, and extending west to Eastern Creek. The site currently is home to rural and industrial uses, and includes a small number of residences.

The development of the estate that the Football NSW Sporting Precinct will be located in is a major new industrial and residential estate. The development will include new roads and public transport infrastructure that will not only benefit estate users but also the broader Riverstone community.

3.6 Project Timing

Football NSW has significantly progressed the project, including purchasing the land. It is expected that the project will commence construction in early 2012 and be completed in 18 months.

Government funding is able to be spread over multiple financial years with Football NSW also able to stage the project with certain non-core elements delivered as part of future development stages.
4. WHY THE PROJECT IS IMPORTANT

4.1 Identified Need

Football NSW with over 280,000 registered football players is the largest member based sporting organisation in Australia and is currently hamstrung in its development due to a lack of facilities and the lack of a high quality state training base. Football NSW's existing facility at Valentine Sports Park in Glenwood has been unable to cope with increasing demands of community and elite football in NSW and hence Football NSW is in need of a larger, upgraded facility.

The Riverstone facility will also provide badly needed football facilities in one of the quickest growing regions of not only NSW, but Australia thereby satisfying a growing community football need in this region.

The Blacktown and in particular Riverstone regions are identified growth regions for NSW, with the key demographic information for the region indicating a growing population with increasing community and sporting needs. The increase in population will in the future put significant pressure on already sparse sporting and community facilities in the region.

The Football NSW Riverstone Football and Community Sporting Precinct will provide long term facility solutions not only to meet the increasing participation in football but also growing needs of community sport and recreation through the provision of:

- multi-purpose sports facilities;
- aquatic and hydrotherapy facilities;
- flexible community space;
- accommodation facilities;
- function and conference facilities;
- and education facilities.

4.1.1 Demographics of the Region

The key demographics statistics of the region relevant to the project are:

- In 2006, the total population of the Blacktown municipality was estimated at 284,301 with this number expected to increase by 25% to 356,652 by 2021.
- There will be a reduction in the proportion of young people and an increase in the proportion of older people from 2006 to 2021.
- Blacktown City's population has increased by 10.4% since 1996, with a staggering 21% increase in population since 1991.
- The population in the Blacktown City LGA is expected to reach 356,663 in 2021, which will represent a 31% population growth from 2006 population of 272,330.
- The Riverstone-Vineyard Area in Blacktown City is one of the regions expected to experience the largest increases in population to 2016. The diagram below shows that the suburbs of Riverstone/Vineyard and Schofields/Rouse Hill are expected to grow by almost 50% to 2021.
The primary household arrangement in the municipality is one family households.

Household Characteristics of the Blacktown City Council

- The following table indicates weekly individual income in the Blacktown City Council in 2006.
- A higher proportion of individuals earn a relatively low income in comparison to the Sydney statistical division and a lower proportion of individuals earn a high income.
- A higher proportion of households receive low incomes and a lower proportion of households receive high incomes.
4.2 Project Rationale

The scoping and design of the facility has been undertaken based on extensive research, demographic analysis and consultation to ensure the facility meets the growing needs of football in NSW and the needs of the developing community in the following ways:

- Multiple grass and synthetic football pitches, a boutique football stadium, as well as "small game" 5-a-side pitches, will provide State, regional and local level football facilities for the growing needs of football in NSW and the Blacktown region.
- Hydrotherapy facilities and accessible flexible community space will cater for the needs of the growing older population.
- Growth in one family households will create greater need for flexible community space, allied health and leisure facilities and contemporary education precincts, all of which form key components of the development.
- The large percentage of residents born overseas emphasises the need for community and sporting facilities that can be used by new Australians as part of their introduction to Australian culture. Football, as the World Game, provides a unique vehicle to integrate new Australians into the Riverstone community.
- Population growth is forecast to continue within the area and consequently, there is likely to be an increasing demand for access to quality sporting and recreation facilities and programs, all of which will be provided as part of the Riverstone development.
- The high number of new households forecasted for the Blacktown City Council highlights the need to develop sport and recreation infrastructure. It is this segment of the population who traditionally participate strongest in sporting activity. It is also these age groups that are likely to be most strongly represented in future growth areas. The Riverstone development will provide sporting and community facilities critical in servicing this growing need.
• Blacktown City Council is likely to have to cater for an increase in the young and very old, with the number of new households estimated to move to the area. The Riverstone development will provide a unique mix of facilities that will cater for all age groups from the very young to the ageing population.

• There is likely to be an increase in the demand for indoor sports within the area due to the growth predicted for the Riverstone, Kellyville Ridge, Colebee, Schofields, Kings Park, Parklea and Marsden Park areas. In particular, residents from the new residential developments may increase the demand for casual use and community competition opportunities.

• Prospective users may have a lower capacity to pay for programs and services at the facility due to the low household and individual incomes. The co-location of sporting facilities and community facilities, along with other commercial facilities will allow the facilities to be made available to the public in an efficient and cost effective way.

• There may be a demand for badminton and table tennis in the area due to the popularity of both sports in the Asian community and the high proportion of residents from the Philippines. The flexible sports halls as part of the Riverstone Precinct, although primarily designed for Futsal, shall be multi-purpose and be able to be utilised for multiple indoor sports, including badminton and table tennis.

• Participation is highest for organised and non-organised sport in the 15-17 age cohort and consequently, this age group will need to be a key target group for programs and services delivered to the local community.

4.2.1 Community, Health and Social Programming

In addition to various sport related benefits the Riverstone Football and Community Sporting Precinct will deliver an expanded range of educational, health, social and youth programs that will be aimed at addressing some of the region’s key health, social and financial indicators. The Riverstone Football and Community Sporting Precinct and associated programs will allow Football NSW to significantly expand its community reach, and interact directly with residents in the local region to use sport and in particular football as a vehicle for social change. Some of the key regional community, health and social issues that Football NSW through the new Riverstone facility will be aiming to influence include:

• **Domestic Violence.** Blacktown has the highest rate of domestic violence in Sydney. Recently released Bureau of Crime statistics and research reports show the Blacktown region had the city’s highest incidence of domestic violence-related assault by head of population. This figure is about 60 per cent higher than the state-wide per-person average. Football NSW, in conjunction with key community agencies, will be using the facilities and its key players, in mentoring programs, targeted at reducing the incidences of domestic violence. Football NSW aims to play a key role in terms of conveying positive messaging around domestic violence.

• **Non- English speaking.** Over 50% of residents were born outside of Australia with 28% of these people born in non-English speaking countries. Football NSW shall use football as a means of introducing “new Australians” and “non-English speaking” Australians to Australian culture ultimately providing an introduction to the English language.

• **Indigenous population.** The Blacktown region has the highest proportion of indigenous people in the Sydney metro area. As with the non-English speaking population, Football NSW will use the world game as a means of positive interaction with the indigenous population.

• **Unemployment.** The region has an unemployment rate of greater than 7% with 25% of these unemployed people in the 25-34 years age group. The development of the Riverstone Football and Community Sporting Precinct shall create a significant number of new jobs both in the construction phase and on an ongoing basis in the operation of the facility.
• **Education.** The Blacktown region has a relatively high incidence of low educational attainment. The Sports College will provide a significant number of educational opportunities to both aspiring athletes of the region along with athletes across NSW. Football NSW intends to offer a number of scholarships to local athletes, including Indigenous and new Australian athletes.

• **Social engagement.** The population of the Blacktown municipality is quite isolated from greater society, with more than one quarter of the population engaging in social gatherings less frequently than once a month. The Riverstone Football and Community Sporting Precinct will provide flexible community space which will be available to the local community for various social and community gatherings.

• **Stress.** One sixth of the population of the Blacktown region report being under "very high" or "high" levels of psychological stress. Sport and recreation pursuits have been identified as a means of controlling stress, with the Riverstone Football and Community Sporting precinct providing significantly increased opportunities for sport and recreation activity and therefore stress release.

• **Health and Smoking.** Almost 50% of the region’s population were overweight or obese with less than half the population meeting daily consumption of fruit recommendations. Knowledge of good nutrition in the region is also poor. The population of the Blacktown region has a significantly higher smoking rate than the population of NSW. Football NSW will use the facility to promote community health and non-smoking messages as part of its broader commitment to the local community.

Football NSW will be using the Riverstone Football and Community Sporting Precinct to establish and expand sporting and community programs in the following areas:

• Domestic Violence.
• Youth programming.
• Health education with a focus on preventative health.
• Immigrant and non-English speaking education programming.
• Indigenous education sporting opportunities.
• Education with a link to sport through the sport college.
• Social programming and engagement through provision of flexible community space and sport mentoring.
• Stress relief through provision of leisure activities.

The development will provide a unique model for the future delivery of joint elite and community facilities that link with health, education, social and youth sectors.

The table below illustrates the reach of the programs and services that will be offered at the Riverstone Football and Community Sporting Precinct.

Good afternoon

I refer to my email of 8 March 2011 concerning the Guidelines for the Community Infrastructure Grants Program.

I can now advise that the Guidelines for the Program have been approved.

Attached to this email are four documents:
- The Community Infrastructure Grants Program Guidelines;
- Request for Information Smart Form (to be completed by you);
- Budget Table; and
- Milestone Plan.

To ensure that funding is provided as soon as possible, please return the completed Request for Information Smart Form to the Department by email by 15 June 2011 to regionalgrants@regional.gov.au. Please note that
the Request for Information Smart Form must be completed and submitted electronically along with supporting documentation including the Budget Table and Milestone Plan.

Based on the information you provide, the Department will undertake an assessment of the proposal, including a risk assessment and confirmation of value for money. Where there is a reason to believe a project or proponent organisation could be of high risk, an Independent Viability Assessment (IVA) may be undertaken.

If you require further information please contact the Department by email at regionalgrants@regional.gov.au or phone 1800 005 494.

A letter confirming these arrangements will follow shortly.

Dear Mr Quarmby

I refer to the letter dated 20 December 2010 from the Hon Simon Crean MP, Minister for Regional Australia, Regional Development and Local Government, about the Australian Government’s commitment to provide up to $8,000,000 to deliver the Riverstone Football and Sporting Precinct Construction project as part of the Community Infrastructure Grants program.

The program will be administered by the Department of Regional Australia, Regional Development and Local Government (the Department). Attached are Guidelines for the Community Infrastructure Grants program (Attachment A) and information regarding the processes to deliver your project. The Government has structured the program to ensure the highest standards of public administration and transparency are applied to decisions about funding election commitments and are an efficient and effective use of public money.

In order for your project to be assessed against the Community Infrastructure Grants Guidelines, I have attached a Request for Information form (Attachment B) which requests details about the project, delivery arrangements and value for money. This form will also be sent to you via email for completion. To ensure that funding is provided as soon as possible, please return the completed form to the Department by email by 15 June 2011 to regionalgrants@regional.gov.au.

As outlined in the Guidelines, information required by the Department includes:
- Project outcomes and benefits;
- Details and credentials of your organisation and any related entities;
- Details of the project, including funding arrangements;
- Financial information including quotations, cost estimates and budgets;
- Project timeframes;
- Project delivery information including project and business plans; and
- All statutory and other approvals required, if relevant, for the project.
Based on the information which you provide, the Department will undertake an assessment of the proposal, including a risk assessment and confirmation of value for money. Where there is a reason to believe a project or proponent organisation could be of high risk, an Independent Viability Assessment (IVA) may be undertaken. Once an assessment of the project has been completed, advice will be provided to the Minister for consideration and, following the Minister’s agreement, funding will be approved. The Government will require you to enter into a Funding Agreement prior to payments being made. The contractual arrangement may include strategies to mitigate or manage any identified risks.

Your organisation should be mindful that election commitments do not constitute contracts and are not to be relied upon as confirmation of the terms upon which funding will be made available. Provision of funding is contingent upon the execution of appropriate contract documentation and settling of relevant project details. Therefore, any work on the project which is undertaken without a properly executed contract is at your own risk.

If you require further information please contact the Department by email at regionalgrants@regional.gov.au or phone 1800 005 494.

Yours sincerely

Gordon McCormick

Brief description of discussion held:

s. 22 explained that we were here as representatives of the Department and advised what our individual roles are.

s. 22 stated the program Guidelines had been approved and were provided to proponents along with a Request for Information form on 24 March 2011. We went through the processes and timeframes involved for the assessment of the project, the Ministers approval and Funding Agreement negotiations. The proponent was advised that a letter would be sent from the Department to them once all required information is received for the assessment to commence and that a 'squeaky clean' project could take 3-4 months to be assessed, approved and contracted.

It was stated that the 15 June 2011 date for receipt of the Request for Information form & supporting docs is flexible as we would prefer to receive a full proposal to assess rather than receive information in dribs and drabs. We looked at the Request for Information form and discussed that FA's would be negotiated based on milestone delivery timeframes and payments would be made in arrears based on the submission of reports.

Particular emphasis was placed on the Guidelines and Request for Information form regarding outcomes, value for money and benefits being provided to the community through the project.

s. 22 explained that funding for this project was not yet appropriated. The proponent should consider how they would like to present the project proposal to the Department as the CIG $8m is one contribution towards a $76.4m project and some of the funding partners have not yet been confirmed.

Joe Denina advised that the Board of Directors were removed and FFA elected a new Board which consists of a mix of professional people including a couple of accountants, lawyer, one association based person and a state league club person etc.

Brad Paatsch from Coffey advised that they are on board to assist with the project implementation and will act on behalf of the proponent to put the project in place. They will also assist with the tender process, have dealings with the purchase of the land and find suitable funding partners for the project. (Coffey is also involved with the Central Coast Mariners project).

The proponent advised that:
- The DA has almost been completed and the Council is behind the project;
- Negotiations for a further 40-50 hectares of land is almost finalised;
- The new location is currently tenanted. The tenants will move out when the project is ready to commence;
- All current figures have been done by a Quantity Surveyor and will be re-done;
Phil

Following up on our telephone conversation please find attached the Community Infrastructure Grants Program Guidelines and the media release from 19 August 2010 announcing funding for the Riverstone Football Facility.

As I mentioned during our discussion, other than what has been detailed in the media release we are not aware of what the project will involve as no paperwork has been submitted to the Department for assessment at this time, although we understand the $8m commitment will be used towards the development of the soccer fields at the location of the new facility.

World Class Football Centre of Excellence for the West

Anthony Albanese Ed Husic Michelle Rowland Susan Templeman posted Thursday, 19 August 2010

A re-elected Gillard Labor Government will build a World Class Football and Sporting Precinct in Riverstone.

The new state-of-the-art $70 million facility – which will include nine purpose built quality football fields – will be a training ground for the next generation of Socceroos.

The Gillard Labor Government will partner with Football NSW to build the new facility, which will give kids across greater Sydney the opportunity to learn new skills and get involved in what is truly an international game.

Minister for Infrastructure Anthony Albanese said if re-elected, Federal Labor would contribute $8 million to help make Football NSW’s project a reality.

“Sydney is the heartland of football in Australia,” Anthony Albanese said.

“Six of our biggest Socceroo stars – Harry Kewell, Tim Cahill, Lucas Neill, Brett Emerton, Mark Schwarzer and Jason Culina – grew up playing on fields in Sydney. We hope our investment can continue that production line.”

The ground-breaking project is expected to include:

- Nine purpose-built, quality football fields, with the ability to expand to 15 fields in the future;
- A potential stadium venue with a capacity of around 3,000 spectators, designed to showcase major Football NSW events;
  - An indoor swimming pool;
  - A multi-purpose indoor sporting centre consisting of two international sized Futsal courts;
  - A physiotherapy and sports medicine centre;
  - A gymnasium;
  - The Football NSW head offices;
  - The potential for Tennis NSW offices and courts;
  - A Football College and lecture rooms;
  - A club and function centre; and
  - Accommodation facilities.
The announcement was made today by Minister for Infrastructure, Anthony Albanese, alongside the Federal Labor candidates for Greenway, Michelle Rowland, Chifley, Ed Husic, and Macquarie, Susan Templeman.

"This is a major infrastructure project with regional significance," Anthony Albanese said.

"The new Football Academy will support a pathway for youngsters here in Western Sydney and beyond."

Federal Labor candidate for Greenway Michelle Rowland said the project would help to encourage kids to enjoy an active, healthy lifestyle.

"This is a growing sport across all age levels and genders, so this new facility will come not a minute too soon," she said.

"Families in Riverstone and beyond can expect to enjoy the benefits of the range of facilities that will be on offer, from soccer to sports medicine to the gym and function centre."

Federal Labor Candidate for Macquarie Susan Templeman said that importantly, the project will allow Football NSW to expand its community and social programs.

"Local schools and community groups will also be able to make use of the excellent new facilities," she said.

Federal Labor Candidate for Chifley Ed Husic said that the project would deliver huge investment in the Blacktown region and beyond.

"The new Football and Community Sporting Precinct is great news for the region’s economy, great news for local families and great news for the development of a range of sports in Sydney," he said.

Funding for this contribution will be fully offset over the forward estimates, consistent with Federal Labor’s commitment to return the budget to surplus in 2013, three years ahead of schedule.
Thanks Brad.

We understood from our conversation when we met that that would be the case. Let me know when the position is clearer. Thanks

Just a quick note in reply to your email below.

We are progressing planning of the NSW Football Riversine project at present, but will not at this stage be in a position to complete the Request for Information Smart Form and supporting documentation by the 15 June 2011.

We are completing further detailed planning and should be in a position in coming weeks to come back to you with advice as to when we will have the relevant project information.

Let me know if you require any further information in the interim.

CIG084 – Riverstone Football and Sporting Precinct Construction project

I phoned Brad Paatsch, Coffey Commercial Advisory on 18 July 2011 to touch base and find out where they’re up to with the project. CIG084 – Riverstone Football and Sporting Precinct Construction project

I phoned Brad Paatsch from Coffey on 14 November 2011 to see how the Riverstone project is progressing. Brad advised Coffey is no longer working on the Riverstone project.

Football NSW has a new Board and new Executive and is taking the project in a different direction. Riverstone as originally put forward will not happen.

Brad advised he spoke with Eddie Moore, CEO last week as Football NSW went to tender (which closed last week) to see what facilities they require - Coffey was unsuccessful.

CIG084 – Riverstone Football and Sporting Precinct Construction project

had a teleconference with Eddie Moore,
CEO, Football NSW and David Riddle on 13 December 2011.

Eddie Moore advised the site developer has gone into administration, the project as planned
will not be going ahead. The Board is up to speed on where things are at and Football NSW is
currently looking at options that will meet their needs for the next 5-10 years. One option is
whether they can redevelop the existing facility as it’s very expensive to buy grass.

The assessment, approval and contract negotiation process was explained to the proponent as
well as reminding them of the 30 June 2014 cut off date for the program.

Eddie will send an email providing an update on the project and will be in touch again in
January 2012.

The Riverstone Football and Sporting Precinct project is currently under review by Football NSW. As the article points a new CEO and Board of Directors was appointed mid 2011 and has undertaken a strategy review of Football NSW. In line with the review Football NSW are considering their options on how they can deliver a project consistent with the Election Commitment. In our last meeting with the proponent on 13 December 2011, they identified an issue with the project location at Riverstone and the proposed site developer. They indicated at our last meeting that they would be in a position early in the new year to provide advice on what they would like to do. The Department followed up with them last week by email but we have yet to receive a response.

On face value it would appear that the original project to develop a site at Riverstone is in some doubt.

Hey Adam

I am just writing regarding a story that appeared in one of our local papers this week, which can be found here: http://www.blacktownsun.com.au/news/local/news/general/football-project-looks-dead-and-buried/2429599.aspx

Just before the 2010 election, Michelle, Ed Husic and Minister Albanese announced that a re-elected Labor Government would provide funding for this complex (the link is below): http://www.alp.org.au/federal-government/news/world-class-football-centre-of-excellence-for-the-

This complex was set to be on the border of Michelle and Ed’s electorates.
I just contacted Minister Albanese’s office and was advised that it now concerns Minister Crean’s office. I was just wondering if you had any news on this, at the moment no one has contacted us regarding the matter and the Blacktown Sun’s article doesn’t mention Michelle or the Federal Government, but you never know what could come up in the future.

Any help you could provide would be greatly appreciated.

Kind regards

RIVERSTONE SPORTING COMPLEX PROJECT

Project Overview
In August 2010, the Australian Government committed to provide funding of $8m to Football NSW for the Riverstone Football and Sport Precinct project.

The overall project estimated to cost $76m would replace the ageing infrastructure at Valentine Park, Glenwood, to cater for the future development of football in NSW by planning and developing a state of the art community sporting, education and wellness complex at Riverstone West in the City of Blacktown, approximately 35kms North West from the Sydney CBD.

In discussions with the Department, Football NSW advised that the Board of Directors and Executive had been replaced. The CEO has indicated that the project will not be going ahead as originally planned and the Board is currently considering a number of options that will meet their needs for the next 10-15 years.

Nicole, Cora and Bill,

As requested at our meeting last Wednesday on the progress of CIG, attached is a status update in the CIG projects and CIG delivery timeframes. Please note that since our meeting, Football NSW has contacted the Department about Riverstone. Further info below.

s.22 - other CIG projects

Football NSW contacted the Department on Friday 2 March about the Riverstone Football Precinct Project indicating that they were ready to progress the project. They indicated that the original proposal for a development at Riverstone was no longer feasible and that they intend to redevelop the existing Football NSW site in Glenwood. I advised that they formally write to the Department outlining their proposal and indicating how the new proposal meets the intent of the election commitment as required under the CIG guidelines. They are forwarding their request for a revision, and details of the proposed changes, as soon as possible.

Regards

Gordon

Dear s.22

Re: Riverstone Football and Community Sporting Precinct

Firstly many thanks for you and your staff’s time in recent months to discuss and update on the progress with the proposed Riverstone Football and Community Sporting Precinct.

As we have advised, the developer who was working with Football NSW around the proposed development at Riverstone, has been placed in administration.

The Development as planned has now been discontinued and various parcels of land sold off by the appointed receiver.

As a consequence the original concepts around the broader Riverstone development and how the planned Football and community sporting precinct married into this development are no longer an option for Football NSW.

In light of this circumstance, the current Board of Football NSW has undertaken a complete and thorough review of the project – from a functional and operational needs basis through to a complete review of the ongoing financial viability of the project.

The Football NSW Board will receive a final Property Options report in late March on the review and an analysis of other potential sites in the North-Western corridor of Sydney that may meet the needs of the sport and importantly reflect the initial goals of the proposal and agreed funding as advised by the Federal Government in 2010.

We would look to come back to you in early April with an in principle position from the Football NSW Board on the preferred location for the Football and Community sporting precinct and the timing to formally complete the submission application documents.

Yours faithfully,

Eddie Moore
Chief Executive Officer.

Football NSW has today welcomed the Federal Government announcement of a $3 million investment into the redevelopment of the Community Football Facilities at Valentine Sports Park in Glenwood.

"Football NSW is delighted that the Federal Government is investing in the redevelopment of Valentine Sports Park and providing ongoing commitments to initiatives in the Western Sydney football community," Football NSW CEO Eddie Moore said today.

Creating a vibrant, state of the art and contemporary headquarters for Football in NSW at Valentine Park is vital to the continued growth and development of the game and for the nearly 200,000 players across the state who participate and love their football.

When the property developer at the proposed Riverstone project fell into administration, the Football NSW Board reviewed the game's needs and requirements. The Board made the assessment that the redevelopment of the existing precinct at Valentine Park is the most financially sound and appropriate step forward for the future of the game in NSW.
The decision to redevelop Valentine Sports Park ensures that Football NSW is able to manage its core facilities in a financially sustainable manner while also providing for the local Blacktown community and the sport more broadly in a true modern Home of Football.

"The initial proposal at Riverstone, while grand in its approach was in reality far beyond the needs and the financial capabilities of Football NSW," said Mr Moore.

The development of the existing site at Valentine Park will ensure both the community footballers and those on the elite pathways will be able to access state of the art facilities on a year round basis.

Football NSW has also welcomed today's announcement that a new Hyundai A-league club representing Western Sydney will be established.

In partnership with Football Federation Australia, Football NSW's vision is to cater for and develop further opportunities and programs for all football participants – juniors, elite, grassroots, coaches, referees, Futsal, athletes with a disabilities, indigenous and new arrival communities - at a Home of Football open to all.

Football NSW will commence a conceptual design process for the redevelopment of the Valentine Park precinct with the facility remaining open for use for the remainder of the season.

Deputy Secretary, Arts and Sports Group
Department of Regional Australia, Local Government,
Arts and Sport
GPO Box 6500

Dear Richard,

We write to you regarding the Commonwealth funding for football for our proposed Western Sydney community building initiative.

Set out below is a summary of the proposed allocation of the funding. Further details will naturally be included in the formal Funding Agreement.

- $3m for upgrades and redevelopment to Football NSW by June 30th 2012 for the Football NSW's home of football and headquarters at Valentine Park, Parklea as a hub for community football development programs.
- $5m to FFA by June 30th 2012 for community engagement and development measures in Western Sydney and support of women’s football. These measures will support the establishment of a team in the national men’s league, the A-League in West Sydney with a foundation philosophy of connection with the community.

Football NSW is FFA’s largest member federation with a registered participation base of around 200,000 and within FNSW’s membership, Western Sydney represents the largest participation centre and is the historical home of football with a rich football tradition and culture, reflecting and influenced by its diverse multicultural population.

The Western Sydney initiative between FFA and FNSW represents an opportunity that is unique in football and which we believe could be the model for all states to integrate the game from the community and grassroots through to the elite end of the game. By FFA and FNSW working in partnership in relation to the Western Sydney project it will put into real practice the recommendations contained in the November 2011 report by Warwick Smith AM commissioned by the Commonwealth into the sustainability of football. This report highlighted the imperative for FFA to focus on A-League clubs building strong and deep links with the community. It noted that this approach would require A-League clubs to engage in close “collaboration with State Federations to establish mutually beneficial arrangements for the good of the game” and recommended the entry into Cooperation Agreements to this end. Our Western Sydney plan, we believe, will take this cooperation to the highest level through community engagement plans and football development plans centred around the A-League team ensuring integration between the grassroots and A-League club from the very start of
the A-League club's establishment. A specific element of the Western Sydney A-League strategy will involve the engagement with the indigenous community in Western Sydney.

Along with community football and the A-League, the third strategic pillar of FFA's role as national governing body is the national teams program and national player pathway. Whilst not provided for specifically by the proposed Commonwealth funding it is also our intention to integrate this other key pillar of FFA's business into the Western Sydney initiative by FFA and FNSW entering into access and use arrangements of Valentine Park for FFA's junior men's and women's national teams and visiting international teams.

We wish to express our sincere appreciation for the Commonwealth funding which will make an important contribution to delivering the known social, health and community-building benefits that sport brings in the growing, diverse area of Western Sydney.

Yours sincerely
