

Petrol Volatility Project

APPENDICES

Contents

Appendix I	Contributors and Contractors
Appendix II	Managing Authority and Phases of the Project
Appendix III	Evaporative Emissions Control System
Appendix IV	Testing Phase Detail
Appendix V	Vehicle and Fuel Specifications
Appendix VI	Raw Data Test Results
Appendix VII	Canister Artificial Purge Results
Appendix VIII	Adsorption Capacity of In-use Carbon Canisters - Influence of Aging (CSIRO)
Appendix IX	Emissions Inventory Modelling Report
Appendix X	Photochemical Smog Modelling Report
Appendix XI	Petroleum Industry Cost Analysis
Appendix XII	Canister Replacement Cost Analysis
Appendix XIII	Comparison of NISE Study Results and PV Project Results

APPENDIX I

CONTRIBUTORS AND CONTRACTORS

THE FOLLOWING MADE SIGNIFICANT CONTRIBUTIONS TO THIS PROJECT:

Environment Australia
Federal Office for Road Safety
Australian Institute of Petroleum Ltd
Federal Chamber of Automotive Industries
Australian Automobile Association
Commonwealth Scientific & Industrial Research Organisation
(Division of Coal and Energy Technology)
