Question No: 186

NBN Co Limited

Hansard Ref: Written, 13/03/2020

Topic: Functions and events

Senator Kimberley Kitching asked:

Entertainment spend – 1 July 2018 – 31 October 2019

With reference to Supplementary Budget Estimates 2019-20 question on notice number 31 and noting the principle, repeatedly affirmed by the Senate, that there are no areas in connection with the expenditure of public funds where there is a discretion to withhold details or explanations from the Parliament unless the Parliament has expressly provided, can the National Broadband Network Co Limited complete the table below in chronological order for functions and events for the period 1 July 2018 to 31 October 2019 which totalled \$874,000 (incl. GST), including, but not limited to, those held for external stakeholder and community groups.

Date of event	Time	Location (including venue name and full address)	Purpose of event	Minister in attendance? Yes or No	Number of attendees from NBN Co	Number of departmental officers	Number of other attendees	Total cost \$

Entertainment spend – 1 November 2019-31 January 2020

Noting the principle, repeatedly affirmed by the Senate, that there are no areas in connection with the expenditure of public funds where there is a discretion to withhold details or explanations from the Parliament unless the Parliament has expressly provided, can the National Broadband Network Co Limited complete the table below in chronological order for functions and events for the period 1 November 2019 to 31 January 2020, including, but not limited to, those held for external stakeholder and community groups.

Answer:

Within the NBN Co's financial systems, the category of "entertainment" includes a wide range of items, such as catering for business meetings. NBN Co does not require business units and/or employees who organise meetings, events and functions to break down information in this way.

With a workforce of more than 6,000 employees NBN Co estimates that this list would contain thousands of items. With the information requested not always recorded in NBN Co systems, completing the above table would need to be manually performed requiring a significant allocation of internal resources and a significant period of time.
