DEFINITIONS OF TERMS USED IN THIS DOCUMENT

Bicyclist

Bicycle rider. Includes bicycle pillion passengers from 1980.

Driver

Vehicle operator other than bicycle or motorcycle operator.

Fatal crash

Any road crash occurring on a public road which resulted in the death of a road user within 30 days which directly or indirectly occurred due to vehicle movement.

Fatality

Any person who, as a result of a road crash, dies within 30 days of the crash.

Motorcyclist

Motorcycle rider. Includes motorcycle pillion passenger from 1980.

Other/unknown [road user]

Includes occupant of non-motor vehicle, such as horse drawn vehicle.

Passenger

Occupant, other than driver, of motor vehicle. Includes pillion passengers of motorcycles and bicycles from 1950 to 1979.

Pedestrian

A person who is not a driver/rider or passenger in a vehicle at the time of the crash. May include person boarding or alighting from a vehicle.

Road user

List of categories that classify all persons who use roads, including drivers, passengers, riders and pedestrians.

INTRODUCTION

This document was produced by the Australian Transport Safety Bureau to provide a single reference to frequently used historical road crash data for researchers, policy makers and other interested parties working in the area of road safety. It is based on data sourced from the Australian Transport Safety Bureau and the Australian Bureau of Statistics.

It contains national data relating to fatal road crashes, population, vehicle registrations and kilometres travelled from 1925 to the present.

Using this document

1. Notes regarding data quality are located at the end of each table. The data is sourced from a number of different publications and collection methods are not always consistent across time.
2. Data sources are located at the end of the document.

Inquiries

Any queries concerning data contained within this document should be directed to the source of the data as indicated in the source notes.

Any comments or queries regarding this publication should be directed to:

Notes to table

Data exclude plant equipment, caravans and trailers.

From 1995 vehicle registration data was sourced from the Motor Vehicle Census as the Motor Vehicle Registrations publication was discontinued.

Notes to table

Vehicle kilometres travelled by buses not collected prior to 1988.

The Australian Bureau of Statistics *Survey of Motor Vehicle Use* collection methodology changed in 1998. Data for 1998 onwards is not directly comparable with previous years.

Table 17 Road fatalities per 100 000 population, Australian States and Territories, 1950 to 2002

Year	NSW	Vic.	Qld	SA	WA	Tas.	NT	ACT	Australia

Notes to table

Vehicle kilometres travelled by buses not collected prior to 1988.

The *Survey of Motor Vehicle Use* collection methodology changed in 1998. 1998, 1999 and 2000 data is not directly comparable with previous years.

Data sources

Data contained within this document have been extracted from Australian Bureau of Statistics (ABS) and Australian Transport Safety Bureau (ATSB) publications. Further details relating to the data are usually available in the source publications or directly from the publishing organisation. Revised Australian Bureau of Statistics figures are used where applicable.

Fatal crash data

The fatal road crash data contained within this report from 1989 onwards is compiled by the ATSB using police road crash data supplied by the New South Wales Roads and Traffic Authority, Vicroads, Queensland Transport, South Australian Police, Western Australian Police, Main Roads Western Australia, Tasmanian Department of Infrastructure, Energy and Resources, Northern Territory police and the Australian Capital Territory Department of Urban Services.

General note on tables

A '-' in a cell indicates that the data were not available for that cell

<i>Table</i>	<i>Period</i>	<i>Source</i>
1	1925 to 1981	Office of Road Safety: OR 7: <i>Road traffic accident data and rates: Australia, States and Territories 1925-1981</i>
