Concessional RAV Entry - Approval

Application number CRE-2021-0000588

Approval number CRE-001296

I, **s 47E(d)** grant a concessional RAV entry approval under section 35 of the Road Vehicle Standards Rules 2019 (the Rules) for the below mentioned vehicle, on the basis that I am satisfied the vehicle meets the criteria for granting a Concessional RAV entry approval.

Important note: This vehicle will not be entered onto the RAV until the conditions of this approval are met. See Conditions of Approval for further details.

Approved Vehicle

Vehicle make: LIEBHERR
Vehicle model: LTM 1070 4.2
Vehicle Identification No. (VIN): WLFA40AZ1FEZZ0216

Approval Date: 15/09/2021

Expiry Date: 14/09/2022

Conditions of the approval

This Concessional RAV entry approval may be subject to conditions.

In accordance with section 31 of the Rules, the vehicle will not be added to the Register of Approved Vehicles (RAV) until the conditions are met.

Once you have met the conditions of approval, please provide evidence of compliance via the ROVER Portal.

Please note: under the Road Vehicle Standards legislation, there are a range of penalties applicable for providing false or misleading information to the Department or for breaching conditions of the approval. For further information, see the *Road Vehicle Standards Act 2018* (sections 28, 31 and 32).

Australian Government

Department of Infrastructure, Transport, Regional Development and Communications

Standard conditions

Standard conditions are set out in the Part 3, Division 3 of the Rules and automatically apply to all Concessional RAV entry approvals. A summary of these conditions is set out in **Attachment A**.

Specified conditions

In accordance with section 47 of the Rules, this approval is also subject to the following conditions.

You may request that we provide reasons for the decision to specify conditions on this approval. Such a request must be made in writing to ROVERinfo@infrastructure.gov.au quoting the Concessional RAV entry approval number near the top of this document. We will provide reasons within 28 days of your request.

You may also apply to the Administrative Appeals Tribunal (AAT) for review of the decision to specify conditions on the approval. Please see <https://www.aat.gov.au/> for further information.

Public information regarding this approval

This approval document will not be published on our website but may disclose it to others in limited circumstances, for example to assist other regulators, or under a Freedom of Information request (in some circumstances), or subpoena.

Contact us

For further information, or to contact us regarding matters that are not listed in the ROVER portal, please email ROVERinfo@infrastructure.gov.au, see <http://infrastructure.gov.au/vehicles>, or call us Monday to Friday 9:00am to 5:00pm AEST:

Attachment A – Standard conditions of the concessional RAV entry approval

The standard conditions of all concessional RAV entry approvals are set out in Part 3, Division 3 of the Rules and automatically apply to this approval. *Text in blue italics* is explanatory.

In summary, each of the following requirements is a condition of a Concessional RAV entry approval:

Condition about allowing or arranging for an inspection of the vehicle

A holder of a concessional RAV entry approval must, on request by the department, allow or arrange for the department to inspect the vehicle.

Condition about providing information to the department

A holder of a concessional RAV entry approval must, on request by the department, within the reasonable time specified in the request:

- provide any information or documents specified in the request:
 - that the department reasonably requires for the purposes of assessing whether the holder of the approval is complying with the Road Vehicles Standards Act 2018, the Rules, or an instrument made under that Act or the Rules or
 - about vehicles to which the approval applies
- provide written answers to questions, specified in the request, about road vehicles covered by the approval

Hi S 47E,

Thanks for your previous email. You may remember our phone conversation regarding a used crane I had purchased from Pacific Crane & Equipment Sales coming in from France. The salesman had a stroke & was unable to complete his obligations regarding the import approval process. Yourself, S & also members of the NHVR team advised me to start the import approval process myself which I did begin immediately. It took over a month to acquire the In Principal Support Letter from NHVR before I could conclude my approval to import application. Unfortunately I have still not been granted import approval for my Liebherr crane & it has remained in Price & Speed's bonded yard in Banksmeadow Sydney since soon after its arrival at Port Kembla on June 20th. I was hoping you could help me by checking on the progress of my application & maybe if possible request that the approval be expedited. My application reference number is CRE-2021-0000588, and my receipt number is 80146346. Any help you could afford me would be immensely appreciated!

Dear Mr Mirabito,

Application for In-principle Support

Thank you for your application dated 16th July 2021 seeking In-principle Support (IPS) for a 2015 Liebherr LTM 1070-4.2, 4 axle all terrain mobile crane (the vehicle).

From the information provided I have examined your request and, in consultation with Transport for New South Wales (TfNSW), can advise that the vehicle is eligible for a vehicle standards exemption and operation in New South Wales under the following notices:

- a) Vehicle standards: by the *National Heavy Vehicle Standards (Special Purpose Vehicles Exceeding 40 tonnes Total Mass) Exemption Notice 2018 (No. 1)*, available via the following link: <https://www.nhvr.gov.au/files/c2019g00006-national-spv-exceeding-40t-exemption-notice-2018.pdf>

This notice is to be read in conjunction with the Operator's Guide available via the following link: <https://www.nhvr.gov.au/files/201901-0975-national-spv-exceeding-40t-operators-guide.pdf>

Note: This notice does not provide road access approval.

- b) Operation: eligible to operate under the *New South Wales Class 1 4-Axle & 5-Axle All Terrain Mobile Crane Mass and Dimension Exemption Notice 2019 (No.1)*, available via the following link: <https://www.legislation.gov.au/Details/C2019G00631>

This notice must be read in conjunction with:

- (i) the Operator's Guide available via the following link: <https://www.nhvr.gov.au/files/201907-1079-nsw-class-1-4-axle-and-5-axle-mobile-crane-operators-guide.pdf>; and
- (ii) the Industry Information Sheet available via the following link: <https://www.nhvr.gov.au/files/201908-1099-nsw-4-and-5-axle-crane-notice-industry-information-sheet.pdf>

This is subject to the vehicle complying with the specifications, conditions and limits outlined in the above notices and operator's guides.

This letter relates only to the following vehicle:

Make	<i>Liebherr</i>
Model	<i>LTM 1070-4.2</i>
VIN/Chassis No	<i>WLFA40AZ1FEZZ0216</i>

Please ensure you review all details of the notices, as failure to ensure the vehicle meets the specifications listed, or failure to comply with any condition, may prohibit the use of the vehicle or the vehicle being registered.

Once the vehicle is ready to enter service, please have your vehicle inspected. After inspection, if the above vehicle is found not to fit under the vehicle standards notice, an Exemption Permit application must be made to the NHVR. Information about making an application, including the application form, is available from the NHVRs website at www.nhvr.gov.au/vehiclestandards.

Should you require any further information, please contact the Vehicle Standards team on (07) 3309 8707 or by email at vehiclestandards@nhvr.gov.au.

Yours sincerely,

Hello s 47E

How are you?

I am very confused with this situation.

This machine is being imported by Pacific Crane & Equipment Sales ABN 86 289 813 265

The import Customs entry is attached

Pacific Crane are the importer on record and as such the Import permit must be approved under the same ABN that appears on the Australian Border force Customs entry to be eligible for home consumption and release into Australia

Pacific crane applied for the permit early in August and still have not received the approval, however Jonathons has been approved for the same machine, but can not be used as he is not the importer

Can you please URGENTLY change this approval to reflect the correct application Liebherr LTM1070-4.2 application number is CRE-2021-0002179

Without this being done, this machine will not be entered into Australian home consumption by Australian Border force

Appreciate your urgent assistance as Border Force require immediate attention at this stage

Hi S 47E

Thanks for your previous email. You may remember our phone conversation regarding a used crane I had purchased from Pacific Crane & Equipment Sales coming in from France. The salesman had a stroke & was unable to complete his obligations regarding the import approval process. Yourself, S & also members of the NHVR team advised me to start the import approval process myself which I did begin immediately. It took over a month to acquire the In Principal Support Letter from NHVR before I could conclude my approval to import application. Unfortunately I have still not been granted import approval for my Liebherr crane & it has remained in Price & Speed's bonded yard in Banksmeadow Sydney since soon after its arrival at Port Kembla on June 20th. I was hoping you could help me by checking on the progress of my application & maybe if possible request that the approval be expedited. My application reference number is CRE-2021-0000588, and my receipt number is 80146346. Any help you could afford me would be immensely appreciated!

Hello s 47E

How are you?

I am very confused with this situation.

This machine is being imported by Pacific Crane & Equipment Sales ABN 86 289 813 265

The import Customs entry is attached

Pacific Crane are the importer on record and as such the Import permit must be approved under the same ABN that appears on the Australian Border force Customs entry to be eligible for home consumption and release into Australia

Pacific crane applied for the permit early in August and still have not received the approval, however Jonathons has been approved for the same machine, but can not be used as he is not the importer

Can you please URGENTLY change this approval to reflect the correct application Liebherr LTM1070-4.2 application number is CRE-2021-0002179

Without this being done, this machine will not be entered into Australian home consumption by Australian Border force

Appreciate your urgent assistance as Border Force require immediate attention at this stage

Thank you and Regards,

Hi **s 47E**,

Thanks for your previous email. You may remember our phone conversation regarding a used crane I had purchased from Pacific Crane & Equipment Sales coming in from France. The salesman had a stroke & was unable to complete his obligations regarding the import approval process. Yourself, **S** & also members of the NHVR team advised me to start the import approval process myself which I did begin immediately. It took over a month to acquire the In Principal Support Letter from NHVR before I could conclude my approval to import application. Unfortunately I have still not been granted import approval for my Liebherr crane & it has remained in Price & Speed's bonded yard in Banksmeadow Sydney since soon after its arrival at Port Kembla on June 20th. I was hoping you could help me by checking on the progress of my application & maybe if possible request that the approval be expedited. My application reference number is CRE-2021-0000588, and my receipt number is 80146346. Any help you could afford me would be immensely appreciated!

I act for Miramax Cranes Pty Ltd. My client purchased a crane through s 47F t/as Pacific Crane & Equipment Sales earlier this year, which was imported from France arriving in Australia in mid to late June. s 47F appears to have failed to lodge the necessary importation documentation with you prior to the crane arriving in Australia, resulting in a significant delay in the crane being released to my client. In mid-July, my client was advised by you to lodge his own import documentation as it appeared that s 47F had failed to do so. My client did this but apparently s 47F also lodged documentation at or around the same time. Is it possible to obtain copies of all documents lodged with you in relation to the crane. If so, how do I go about obtaining that documentation?
