Thanks Andrew,
 I would like nothing to go out on Strat Fleet until it's been placed in the context of a wider 2024 plan and we are agreed on next steps. I've had a chat with Marisa, lets circle around before we mid-December to plan.

Hi s22(1)(a)(ii)

As I mentioned a couple of weeks ago, we are putting out a issues paper as the next step in talking to stakeholders about establishing the fleet and how it might operate. The issues are focussed on how to design the subsidy and requisition programs in a way that enables vessel operators to engage and provide vessels for the fleet. It also works through a few associated issues, like what workforce issues might arise specific to the fleet. The outcome will help us with the program design and timings.

Do you have any comments or questions on the doc? We will put it out in the next few days under the Department's banner.

Happy to discuss.

Andrew
