Subject: Brisbane increased air traffic compliant

We have lived in [REDACTED] for the past 10 years and were aware when we bought here but also expected the residents to be protected the same way Sydney operates with its airport. I do not understand how it is possible that in this day and age planes dont take advantage of their location and go in and out over the water. If they were using the water to come and go I feel they could fly whenever they want but when they are flying as low as they currently are they need to be put on a timeframe. They need a curfew the same as Sydney or any large airport positioned close to residential areas.

The noise pollution is insane and pushing residents out of Brisbane contributing to the sprawl of Brisbane which is not ideal at all.

Please put in a curfew or send them over the water!

Thanks
Paige Browning
