QUESTIONS AND ANSWERS

Question 1: What is the maximum number of parties sharing the grant?

Answer 1: There is no maximum number of parties. The limiting factor will be the level of funds available - the number of grants approved will depend on the size of individual grants.

Question 2: Is there a minimum length of time required for trials?

Answer 2: No. However each proposal is subject to competitive assessment against other applications in relation to the objectives and outcomes of the program and value for money. In this context, a minimalist project design may not succeed.

Question 3: Is there a minimum amount of time that the aircraft needs to be in operations during this trial e.g. 3x a week?

Answer 3: No. (Plus, see answer to Question 2 above).
