Hi Tim

I have attached some working papers explaining the justification for the next claim (\$13M) for the Airport Reseal project. As discussed I have included \$3M for additional Biosecurity costs incurred by Boral over and above the allocation for Biosecurity costs in the tender price (Note Boral had included an estimate of \$4.2M for additional biosecurity costs as a tender qualification).

These additional costs have arisen because of stricter Biosecurity requirements on importing rock onto Norfolk Island being imposed by the relevant Government department. I believe these can legitimately be considered as eligible costs.

If you have any questions please contact me.

Cheers  
 Alistair
