**Ref: Norfolk Island Airport Repair and Rehabilitation Contract (SPT 171819NIRC)**  
**Clause 65 - Notice of Practical Completion**

This notice is to advise the PMCA that Boral is applying for Practical Completion of the above mentioned contract and associated works as of today the 21st of August 2020.

Boral confirms that the items noted in Separable Portion #4 have now been completed and provided to the PMCA.

In addition a defects inspection has been completed between the PMCA, Boral and Norfolk Island Airport representatives on the 12th and 18th of August and a list of defects developed and subsequently provided to the project. Since receipt of the list Boral and its subcontractors have addressed the majority of the items raised and has only a minor number of items remaining. These are proposed to be addressed when weather conditions improve and ground conditions are suitable to undertake works without causing unnecessary damage to other surrounding areas.

Boral requests consideration by the PMCA that the Project SPT171819NIRC - Norfolk Island Airport Repair and Rehabilitation is Practically Complete with only minor items outstanding.

Should you have any further inquiries please do not hesitate to contact the undersigned.

Regards

Chris Jeffery
