# Federal Funding to Fix 71 'Black Spots' In Victoria

The safety of 71 Victorian road 'black spots' will be substantially improved over the next 12 months.

Deputy Prime Minister and Minister for Infrastructure, Transport and Regional Development Michael McCormack today announced \$25 million for the state under the Black Spot Program's 2019–20 funding round.

"The Australian Government is committed to building safer roads across the nation," Mr McCormack said.

"The Black Spot Program targets road locations where crashes are occurring, reducing the risk of crashes through funding safety measures such as traffic signals and roundabouts at dangerous locations.

"The 71 black spot projects being funded across Victoria are an important contribution towards reducing the national road toll."

Mr McCormack said this investment in black spot projects would deliver safer roads in local government areas throughout Victoria.

“Funding has been allocated to road locations that have been identified as high priority, with 326 casualty crashes recorded at these sites over the past five years, including 15 fatal crashes” he said.

“The panel that reviews priorities for the program includes representatives from the Royal Automobile Club of Victoria, the Victorian Transport Association, Victoria Police, the Municipal Association of Victoria and VicRoads.”

Assistant Minister for Road Safety and Freight Transport Scott Buchholz said the Black Spot Program showcases the Liberal and National Government’s commitment to making our roads safer.

“Thanks to the strong financial management from the Liberals and Nationals Government, we can target our investment to where it’s most needed so Victorians will be able to travel more safely across the state,” Mr Buchholz said.

“I am proud to be part of a government that is not only delivering on its commitment to do more to reduce crashes on our roads, but is delivering the infrastructure that Australians want, need and most importantly deserve.”

The Bureau of Infrastructure, Transport and Regional Economics (BITRE) has found that, on average, Black Spot projects reduce the number of crashes causing death and injury by 30 per cent.

The Australian Government has committed \$1.05 billion to the Black Spot Program from 2013–14 to 2022–23 to improve road safety across the nation.

# Federal funding to fix 92 black spots in Victoria

Funding under the Australian Government's Black Spot Program will substantially improve 92 dangerous crash sites on Victorian roads over the next two years.

Deputy Prime Minister and Minister for Infrastructure, Transport and Regional Development Michael McCormack said the state would receive \$38.7 million under the program's 2020-21 funding round.

"This major investment is part of the Australian Government's commitment to building safer roads right across the nation," Mr McCormack said.

"The high-priority locations we are funding have seen a total of nine fatal crashes and a further 521 causing injuries recorded over the past five years."

Assistant Minister for Road Safety and Freight Transport Scott Buchholz said the 92 Black Spot projects across Victoria would make an important contribution towards reducing serious injuries and deaths on Victorian roads and built on previous investments in the state.

"Our Liberal and Nationals Government has invested the funding needed to deliver 535 projects across Victoria," Mr Buchholz said.

"Regional Victorians have been the primary beneficiaries of this program, as we have placed a heavy focus on addressing the number of crashes causing death and injury in regional areas.

“This new funding will see total investment through the Black Spot program in Victoria rise to \$237.4 million, demonstrating our ongoing commitment to improving road safety.”

Federal Member for Monash and Chair of the Victorian Black Spot Consultative Panel Russell Broadbent said this investment in Black Spot projects would deliver safer roads in local government areas throughout Victoria.

“The Black Spot Program funds safety measures such as traffic signals and roundabouts at road locations where a number of serious crashes are known to have occurred or are at risk of occurring,” Mr Broadbent said.

“The panel that reviews priorities for the program includes representatives from the Royal Automobile Club of Victoria, the Victorian Transport Association, Victoria Police, the Municipal Association of Victoria and VicRoads.”

## Victorian Federal Blackspot Consultative Panel Meeting: 2020-2021 Program

Date: April 1 <sup>st</sup> 2020	
Time: 2pm – 2:25pm	
Location: Skype and phone meeting	
Chair: Russell Broadbent MP	
Attendees:	
Committee members: - Russell Broadbent MP (Chair) - s 47F e (DoT) - s 47F (DoT) - s 47F (DoT) - s 47F (RACV) - s 47F (Minister Pulford's Office) - s 47F (DoI) - s 47F (MAV)	Administration support: - s 47F (DoT) - s 47F (DoT) - s 47F (DoT)
Apologies: s 47F	

Meeting commenced at 2pm.

The Chair welcomed Consultative Panel members to the meeting.

s 47F and s 47F confirmed minutes from 2019-20 Consultative Panel meeting.

### Actions arising from 2019-20 Consultative Panel meeting:

- New Panel membership – s 47F confirmed the new Panel chair as Russell Broadbent, MP for Monash
- Kilby Rd – this has been passed to the Movement and Mobility team in the Metro South East regional office and options are being developed. Movement and Place factors will be a key consideration as this is an important road link used by public transport
- Three projects that were deemed ineligible last year after a review of crashes did not get resubmitted. Those being:
  - Raglan Elmhurst Rd
  - Beaufort Carngham Rd
  - Chiltern Valley Rd

### Meeting Notes:

A summary of the funding options for the 2020-21 program, together with the DoT's recommendation, were presented to the committee prior to the meeting. A copy of the presentation is attached for reference. The DoT's recommendation was to:

1. Endorse up to \$30 million worth of projects for construction in the 2020-21 financial year (priority list), and
2. Endorse an additional \$10 million worth of projects in reserve, to be approved for construction in 2021-22 .

It is noted that councils would be encouraged to get the projects in the reserve list to a shovel ready status in 2020-21 and will be funded in the 2021-22 financial year. Should any of the projects in the priority list be significantly delayed, the DoT would work with councils to accelerate delivery of reserve list projects.

The chair put forward the recommendation for the committee to endorse the DoT's recommendation to fund the \$30 million priority list and the \$10 million reserve list. No objections were received, and the committee unanimously accepted the DoT's recommendation. It was agreed that the lists of projects in each category should be circulated to Consultative Panel with the draft minutes. The lists will then be forwarded to the Federal Department for finalisation and submission to the Federal Minister for Infrastructure, Transport and Regional Development.

**Action:** s 47F

The Chair requested that the Consultative Panel should meet later in the year (September/October) to review progress and actions.

**Action:** s 47F to organise follow up meeting

Other business:

- None

Meeting closed at 2.25pm

Attachments:

- Copy of the meeting presentation
- Endorsed projects list

Post meeting note:

It was subsequently identified that due to an administrative error, 4 projects should not have been included in the submission to the Panel:

- Boundary Rd and Derrimut Rd TEC \$463,000 (Proposed by Melton and Wyndham Councils) – not supported (design and TEC issues unresolved)
- Boundary Rd and Tarneit Rd TEC \$97,000 (Proposed Melton and Wyndham councils) – withdrawn by councils
- Cecil St and Dorcas St TEC \$175,000 (City of Port Phillip) – withdrawn by council

- Scotchmer St and Brunswick St TEC \$96,000 (City of Yarra) – not supported by region, treatment considered not to have satisfactorily addressed the crash history

These projects have been withdrawn from the program. The final submission to the Federal Minister is as follows:

- Priority list for construction in 2020-21: 82 projects valued at \$28.7 million
- Reserve list for approval for construction in 2021-22: 11 projects valued at \$10.1 million

As the total value of the revised priority list still exceeds the current annual budget of \$26.8 million, it was decided that projects would not be promoted from the reserve list at this stage.

A revised list of projects is attached.

A report will be made to the next Consultative Panel meeting in August or September to outline the process changes that will be made to avoid this error being repeated in future years.

**Action:** s 47F

### **Second amendment, 12 June 2020**

The Mair St, Ballarat project with a TEC of \$1.738 million has been brought forward to boost expenditure in 2020-21. With the deletion of the Scotchmer St project from the list (incorrectly listed previously), this brings the program totals to:

- Priority list for construction in 2020-21: 82 projects valued at \$29.98 million
- Reserve list for approval for construction in 2021-22: 10 projects valued at \$8.75 million

The revised project lists are attached for reference. No other changes have been made from those issued previously.
