The main questions that would still need to be addressed include:

- The nature of the relationship and agreement between NBN Co and Kuiper. s47(1)(b)

- What sort of termination arrangements are in place in the event Kuiper cannot launch satellites, e.g. will NBN Co be compensated for this.
- Are NBN Co receiving any other benefits s47(1)(b)

I will continue to review, and let you know if any other questions arise.

Happy to discuss if you have any questions or concerns.

Kind regards,

Hi Nicolle

As set out in the PGPGA, the purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company, notify the Minister of significant decisions made by the company and notice of any significant issue that may affect the company.

NBN Co has advised that it is making this decision to move to LEOSat based on its delivery of broadband services, and that the move is positive from a financial perspective for the company. s47C

I've attached the letter with the sections that should be removed highlighted in turquoise. In addition, the key points about the ability of NBN Co's LEOSat solution s47C could be noted, and product details highlighted in pink moved to an Attachment.

Thanks

Hi

I agree with s22(1)(a)(ii) that it may be useful for NBN Co to recast or remove some proposed text on s47C

Otherwise, I've suggested a few other minor edits and queries on top of s22(1)(a)(ii) suggestions – as there are also a couple of areas where NBN Co is raising risks/issues that could give rise to SIP compliance issues – and these might benefit from some further explanation as to how NBN Co will effectively manage these issues

Hi s22(1)(a)(ii)

We'd like the following text to be sent to NBN Co as part of the response on the s91 draft. Pls discuss with us if you wish to change:

The purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company and notify the Minister of significant decisions made by the company. s47C

Further to this, the company provides s47(1)(b), potential scenarios in which the company would not be meeting its SIP obligations. It would be useful for the company to more explicitly confirm that it can manage the issues raised.

Finally, in the s47(1)(b), it is not clear whether the s47(1)(b) LEOsats required to provide retail broadband services in the USA is the same number that will allow the company to start providing services in Australia. The letter should be clearer about this.

Thanks

Hi s22(1)(a)

Thanks for your team pulling this all together. Suggested changes and comments are below in yellow highlight but I'll never stop saying Sky Muster, two words! Also pick one option for the LEOSat/LeoSat/Leosat abbreviation and be consistent (I find this as massive distraction when reading – I've highlighted all the instances in turquoise). I also assume the material up top I've highlighted in pink won't be part of the email.

Cheers

Good Afternoon

As you are aware, we are progressing a request for DOF regarding the s91 Notification for nbn's LEO satellite partnership. Please see draft email below.

Please let us know if there are any additions or changes to the content for sharing with DOF please. Apologies but we need any changes ASAP and before 300 please.

Regards,

s22(1)(a)

OFFICIAL

OFFICIAL

As you are aware NBN Co are in the process of finalising a s91 Notification in relation to NBN's LEO satellite partnership. Please see our comments below. We would appreciate any advice and comments ASAP (and preferably by 9am tomorrow) from yourselves before we go back to NBN Co. Apologies for the tight turn around.

- Likely regulatory treatment.
- That we'll engage with company on how this is going to support management of UPL issue. s22(1)(a)(ii)

s22(1)(a)
(ii)

Dear Alex/Andrew/NBN Co colleagues

- The purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company and notify the Minister of significant decisions made by the company. The focus of the letter should therefore be NBN Co's decision to move to **LEOSat** for its delivery of broadband. s47C
- o s47C
- s47C
- o s47(1)(b)
- o The letter should also note any other potential consumer implications (s47(1)(b))
- The company provides a list of s47(1)(b) in which it mentions under s47(1)(b) potential scenarios in which the company would not be meeting its SIP obligations. It would be useful for the company to more explicitly confirm that it can manage the issues raised. We would suggest that the letter should:
 - o More explicitly explain that it is unlikely that the **LeoSat** reseller service will be regulated through the SAU, s47C
 - o s47C
 - o Outline whether/how the proposal would be incorporated or explained within its upcoming IOP26.
 - o Include a brief explanation of why the company considers the proposal aligns with the SoE.
 - o Confirm whether the company has considered whether the proposal has any competition/competitive neutrality considerations – e.g. in s47(1)(b) section.
- s47(1)(b) it is not clear whether the s47(1)(b) LEOSats required to provide retail broadband services in the USA is the same number that will allow the company to start providing services in Australia. The letter should be clearer about this.
 - o What sort of termination arrangements are in place in the event Kuiper cannot launch satellites, e.g. will NBN Co be compensated for this? Is NBN Co receiving any other benefits s47(1)(b)
- Considering [Regarding??] the nature of the relationship between NBN Co and Kuiper. s47(1)(b)

Seek clarification on terminology associated with the relationship and what is NBN Co

providing to Kuiper (apart from money) under this Agreement. [Think these sentences might need some reworking to pose a clearer question to NBN Co - s22(1)(a)(ii)]

○ s47(1)(b)

Appreciate your assistance.

As you are aware NBN Co are in the process of finalising a s91 Notification in relation to NBN's LEO satellite partnership. Please see our comments below. We would appreciate any advice and comments **ASAP (and preferably by 9am tomorrow)** from yourselves before we go back to NBN Co. Apologies for the tight turn around.

- Likely regulatory treatment.
- That we'll engage with company on how this is going to support management of UPL issue.
- The purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company and notify the Minister of significant decisions made by the company. The focus of the letter should therefore be NBN Co's decision to move to LEOSat for its delivery of broadband. s47C
 - s47C
 - s47C
 - s47C
 - The letter should also note any other potential consumer implications s47C, s47(1)(b)
 - The company provides a list of s47(1)(b) in which it mentions under s47(1)(b)
 - s47(1)(b)
 - Outline whether/how the proposal would be incorporated or explained within its upcoming IOP26.
 - Include a brief explanation of why the company considers the proposal aligns with the SoE.

- Confirm whether the company has considered whether the proposal has any competition/competitive neutrality considerations – e.g. in risk section.
- s47(1)(b) [REDACTED], it is not clear whether the s47(1)(b) LEOsats required to provide retail broadband services in the USA is the same number that will allow the company to start providing services in Australia. The letter should also provide advice on any termination provisions in place in the event Kuiper cannot launch satellites, including whether NBN Co will be compensated for lack of service or poor service.

- s47C [REDACTED]

Appreciate your assistance.

As you are aware NBN Co are in the process of finalising a s91 Notification in relation to NBN's LEO satellite partnership. Please see our comments below. We would appreciate any advice and comments **ASAP (and preferably by 9am tomorrow)** from yourselves before we go back to NBN Co. Apologies for the tight turn around.

- Likely regulatory treatment.
- That we'll engage with company on how this is going to support management of UPL issue.
- The purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company and notify the Minister of significant decisions made by the company. The focus of the letter should therefore be NBN Co's decision to move to LEOSat for its delivery of broadband. s47C
 - s47C
 - s47C
 - s47C
 - The letter should also note any other potential consumer implications s47(1)(b)
- The company provides a list of s47(1)(b) in which it mentions under s47(1)(b) potential scenarios in which the company would not be meeting its SIP obligations. It would be useful for the company to more explicitly confirm that it can manage the issues raised. We would suggest that the letter should:
 - More explicitly explain s47(1)(b) that it is unlikely that the LeoSat reseller service will be regulated through the SAU, s47C
 - s47(1)(b)
 - Outline whether/how the proposal would be incorporated or explained within its upcoming IOP26.
 - Include a brief explanation of why the company considers the proposal aligns with the SoE.

- Confirm whether the company has considered whether the proposal has any competition/competitive neutrality considerations – e.g. in s47(1)(b) section.

- s47(1)(b), it is not clear whether the s47(1)(b) LEOsats required to provide retail broadband services in the USA is the same number that will allow the company to start providing services in Australia. The letter should be clearer about this.

- What sort of termination arrangements are in place in the event Kuiper cannot launch satellites and/or if there are material issues with CPE etc provided by Kuiper, e.g. will NBN Co be compensated for this? Are NBN Co receiving any other benefits s47(1)(b)

Suggested additional text – s47(1)(b)

but its not clear

what recourse it would have under its contract/services agreement if there were major or systemic issues with CPE

- s47(1)(b)

Appreciate your assistance.

Hi s22(1)(a) and s22(1)(a)(ii)

I think this a reference to s22(1)(a)(ii)

s47C

Accordingly, it may be best to clarify with DoF in the first instance that we understand that NBN Co was referring to costings ^{s47C} [REDACTED], not to broader costings on broadband and LEOsats

Hi s22(1)(a)(ii)

I'm not sure if you saw a copy of the final letter and I don't think the s47(1)(b) was in the original letter. FYI NBN Co basically had the letter signed Friday before we were able to get our and DOF's advice back to them.

I note the highlighted paragraph was deleted in the new letter as per below and then replaced with 2nd dot point at the top of page 6 in the new letter. There may have been other changes but I didn't notice too many.

Good Morning

Please see our comments below on the S91 Notification in relation to NBN Satellite partnership. Please see shareholder comments below from DOF and DITRDCA.

- s47(1)(b)
 - We appreciate if NBN Co can also clarify whether there will be any impact to the s47(1)(b) if existing NBN customers decide to purchase LEOSat services directly from Amazon Kuiper instead of going through NBN Co's RSPs.
- s47(1)(b)
 - We suggest NBN Co should explain in the letter its approach/ mitigation strategy on this limitation, and how customer expectation will be managed.
- Under the s47(1)(b), we suggest NBN Co should clarify the public announcement arrangements (if any), including when the Company and/or Amazon expect to make a public announcement, whether the agreement will trigger any NBN Co's reporting obligations to the debt market.
- The purpose of a s91 notification is to keep the responsible Minister informed of the activities of the company and notify the Minister of significant decisions made by the company. The focus of the letter should therefore be NBN Co's decision to move to LEOSat for its delivery of broadband. s47C

○ s47C

s47C

• s47C

○ s47C

○ The letter should also note any other potential consumer implications s47(1)(b)

- The company provides a list of s47C in which it mentions under s47C potential scenarios in which the company would not be meeting its SIP obligations. It would be useful for the company to more explicitly confirm that it can manage the issues raised. We would suggest that the letter should:

- More explicitly explain s47(1)(b) that it is unlikely that the LEOSat reseller service will be regulated through the SAU, s47C

It would be useful for NBN Co to set out its views on the pro/cons around its LEOSat service being regulated via AD or BROCC against the SAU.

○ s47(1)(b)

- Outline whether/how the proposal would be incorporated or explained within its upcoming IOP26.
- Include a brief explanation of why the company considers the proposal aligns with the SoE.
- Confirm whether the company has considered whether the proposal has any competition/competitive neutrality considerations – e.g. in s47(1)(b) section.

- In the s47(1)(b), it is not clear whether the s47(1)(b) LEOSats required to provide retail broadband services in the USA is the same number that will allow the company to start providing services in Australia. The letter should also provide advice on any termination provisions in place in the event Kuiper cannot launch satellites, including whether NBN Co will be compensated for lack of service or poor service.

Hi s22(1)(a)

Given this s91 did end up including comment on the s47C and so does the response letter, the package will need to be cleared by both Ben Phelps and Nicolle Power. Nicolle will discuss with Ben P shortly.

You will see that s22(1)(a)(ii) and I will make substantive changes to the material in the brief and letter that discuss s47C

Thanks

s22(1)(a)(ii)

Good Morning

As you are aware, we are progressing a response to the recently received S91 Notification for NBN's LEO satellite partnership. We intend to share the brief, letter and attachments with DoF and Ben P in parallel today, so any comments would be appreciated as soon as practically possible. Apologies, for the short timeframe. Also appreciate any updates via tracked changes. Please see respective drafts at the following link:

[S91 LEOSat Partnership](#)

The intention is to progress by 3.00pm this afternoon. Thank you for your assistance.

Regards,

s22(1)(a)(ii)

Assistant Director • Emerging Communications

OFFICIAL:Sensitive, Legal-Privilege

Good afternoon Ben

Please see updated S91 LOESat partnership Min Sub and Letter. Please note we are waiting on advice from DOF on the letter and have requested advice ASAP. DOF has advised that <s22(1)(a)(ii)> is managing a few <s22(1)(a)> related issues and will provide advice on the Joint letter as soon as he can. We will provide any additional information and updates as they come through. Please see a link below to the respective folder and documents for review at the following link [S91 LEOSat Partnership](#).

Please note tracked changes have been accepted with comments still listed for ease of reference.

Regards,
 <s22(1)(a)>

Hi <s22(1)(a)>

I've made some updates.

From my perspective this is ready to go back to Nicolle and Ben for review (provided s22(1)(a)(ii) has finished his updates). I did make a change to the letter.

Thanks

s22(1)(a)(ii)

Hi

Also – At the beginning of March 2025, NBN Co finalised a process of simplifying its Sky Muster satellite products by withdrawing all metered products from the market. The company now only offers three Sky Muster Plus Premium products with wholesale speeds of 25, 50 and 100 Mbps download. To encourage migration and deliver more value, NBN Co is currently offering nbn Sky Muster Plus Premium plans which have uncapped for all data usage (subject to fair use policy and shaping) at monthly wholesale price points that are, in most cases, either the same or lower than price points for Sky Muster Plus plans with metered data.

Thanks

s22(1)(a)(ii)

Hi

NBN Co's IOP25 forecast that its satellite network would have around s47(1)(b) of end-users on 12/1 and 25/5 Mbps plans by the end of FY25, equalling around s47(1)(b) premises..

Thanks

Hi Ben

We have updated both the Min Sub and Letter with the latest changes. Noting Nicolle and your earlier review, would you like to see the MinSub and brief again? I understand Lisa may also want to see the MinSub and letter before signing?

Please let us know if you are happy with the current version of the letter and I will progress to DOF for their review.

Please see a link below to the respective folder and documents at the following link [S91 LEOSat Partnership](#).

Happy to discuss.

Regards,

Hi Ben and Nicolle

We have received DOF's comments attached, which are largely editorials. Please note however DOFs comments relating to the removal of the words on seeking additional information and holding up agreements at the end of the letter. See s22(1)(a)(ii) comments.

We would appreciate your review on DOF changes and if you are comfortable with their suggested changes, noting most are editorials.

Please see attached.

Hi s22(1)(a)(ii)

Thanks for this. Edits in track. Tried to take a light touch, but there was a fair bit that needed to be reworked for us to put the Finance Minister's name on this.

Happy to discuss any queries. I don't think I've changed anything substantive, just tried to remove redundancy and clarify some areas that are Comms Minister / DITRDCA concerns.

Obviously wasn't possible this time due to Finance having significant competing priorities, but in future good to have joint-SHM letters cleared at same level as drafting progresses so we can get broadly agreed

language landed earlier (and prior to AS review). I'll send to Amy to clear now, please let me know if any of my edits are red-line issues for Comms.

Cheers,

s22(1)(a)(ii)

Hi s22(1)(a)(ii)

Thanks for your email. I have received a missed call – not sure whether it was you looking for an update. The joint letter is currently with s22(1)(a)(ii) for review. He needs to manage a few s22(1)(a) related items as a priority before he can go back to the joint letter.

I do have some questions about the letter wordings around s47C. Would you be available for a quick chat to help me understand your approach? This should help speed up our review process.

Hi s22(1)(a)(ii)

Please see attached a copy of the draft letter for our Shareholder Ministers in response to the recently received S91 Notification for NBN Co's LEO satellite partnership. We are seeking DoF's review as soon as practically possible and note your advice below regarding the s22(1)(a)(ii) and s22(1)(a)(ii). Appreciate if you could advise on the Finance reference as per highlighted section in letter as well.

Please let us know if you require any further information.

Regards,
s22(1)(a)

Hi s22(1)(a)(ii)

Thank you for sharing NBN Co's response with us and drafting the response letter. You may already have this, however if not please find attached the joint letter template.

Similar to previous section 91 briefings approach with s22(1)(a)(ii), we will agree the joint letter at a departmental level before we send the brief up to our respective Office. Hope this also aligns with your expectation.

Happy to discuss if you have questions/ concerns.

Regards,

Hi s22(1)(a)(ii)

As mentioned earlier DOF are seeking advice on the status of the letter and the wording.

For Lisa's awareness DOF are ready to send their brief up (AS cleared; no further changes to letter – attached for visibility).

DOF's advisor gave s22(1)(a)(ii) (our contact at DOF) a call earlier asking about the letter. The Finance Minister has a signing window at 10am tomorrow that are trying to make. DOF are planning to get their brief to MO shortly.

DOF are hoping that, even if Lisa can't clear brief, it would be great to have agreement on final wording of letter by COB.

Regards,

Hi Nicolle, s22(1)(a)(ii) and teams,

Please see attached - amended version by Lisa. I can live with these amendments – Lisa wanted to be less prescriptive. Nicolle, I understand she's already flagged with you? If we're happy after a general clean up, then we can send up to MO via PDMS. Lisa is OK with AS clearance only and does not need to see another version via email or PDMS.

As for her message about the letter (see attached), I'm not sure that DoF is looking for a version. Right? I think s22(1)(a)(ii) summary may have caused that confusion.

s22(1)(a)(ii)

All the best,
 Ben

Hello Ben

I understand you are chasing this – sorry it has taken me a while to get through. I will give you a call to discuss.

I think there is a bit too much detail in the brief and some of the information is for the department to resolve rather than include in briefing for the Minister.

Happy to discuss of course.

If you agree with my changes, happy for this to progress. Letter looks good – no changes.

Thanks

Lisa

Hi,

A couple of paras don't quite make sense in the shortened form. I did a quick review and have suggested a few changes to make sure it still works. I also wanted to keep in the number of services affected by the s47(1)(b) so have weaved this in higher up.

I think the letter is generally fine.

Thanks

Nicolle

To: The Hon Michelle Rowland MP, Minister for Communications

Subject: Section 91 Notifications – 21 February 2025

Critical Date: 7 March 2025 -To allow NBN Co to finalise contract negotiations.

Recommendation:

1. That you **agree** to seek additional information from NBN Co on how it will manage transition arrangements, impact on consumers and regulatory matters before NBN Co enters into a contractual arrangement;
2. That you **note** the information in this brief and **sign the letter at Attachment B**

Signed / Not Signed

The Hon Michelle Rowland MP

Date: 07 / 03 / 2025

Comments:

Key Points:

1. Section 91 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act) provides that NBN Co must keep shareholder Ministers informed of the activities of the company.
2. On 21 February 2025, Chief Executive Officer, Ms Ellie Sweeney provided a section 91 notification under the PGPA Act (**Attachment A**). The notification relates to NBN Co Board (the Board) delegating authority to certain positions within NBN Co to approve contractual terms for a Service Agreement (the Agreement) with a low Earth orbit satellite (LEOSat) provider to deliver broadband services.
3. The s91 outlines the key features of an expected LEOSat offering and is consistent with much of the advice provided to the Department during early engagement. However, given the

OFFICIAL: Sensitive

OFFICIAL: Sensitive

MS25-000512

significance of the arrangements contemplated, the department considers that additional information needs to be provided by NBN Co ^{s47C}

[REDACTED]

4. A draft joint letter to be signed by Shareholder Ministers is at **Attachment B.** ^{s47C}

SENATOR THE HON KATY GALLAGHER
Minister for Finance

THE HON MICHELLE ROWLAND MP
Minister for Communications

Finance ref: MC25-000650
DITRDCA ref: MS25-000152

Mr Kevin Russell
Interim Chair
NBN Co Limited
Level 13 100 Mount Street
NORTH SYDNEY NSW 2060

Dear Mr Russell

We write in our capacity as Shareholder Ministers in response to the 21 February 2025 letter from the NBN Co Limited (NBN Co) Chief Executive Officer, Ms Ellie Sweeney. The letter provides notification, as required under section 91 of the *Public Governance, Performance and Accountability Act 2013*, of NBN Co's Board endorsed proposal to approve delegating authority to certain positions within NBN Co to approve the final contract terms for a Services Agreement (Agreement) with low-earth orbit satellite (LEOSat) provider Amazon Kuiper Australia (Kuiper). Subject to finalisation of negotiations, we understand that such an agreement will enable a pathway for NBN Co to continue to provide broadband services currently supported over geostationary broadband satellites that will reach end of life in coming years.

s47G(1)(a)

s47G(1)(a)

The Australian Government looks forward to being updated on the progress of the service agreement between NBN Co and Kuiper. We appreciate your continued efforts to keep us and our departments informed.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Katy Gallagher', is written over the printed name.

Katy Gallagher
Minister for Finance

A handwritten signature in blue ink, appearing to read 'Michelle Rowland', is written over the printed name.

Michelle Rowland
Minister for Communications

Subject: Lines on Comms Day article on NBN Co and Amazon Kuiper [SEC=OFFICIAL]

OFFICIAL

Hi Nicolle,

Further to our discussion this afternoon, Dan and I noted the Senate Estimates brief on LEOSats ([SB25-000112.docx](#)) covers off lines on the 4 March CommsDay Article that reported that NBN Co had selected Amazon Kuiper.

- On 21 February 2025, Shareholder Ministers received a Section 91 notice on the NBN Co Board's intention to delegate authority to certain positions within NBN Co to approve contractual terms for a Service Agreement with a LEOSat provider for the delivery of broadband services.
 - o On 3 March 2025, the AFR revealed that NBN Co has chosen Amazon's Project Kuiper as a result of the RFI process.
 - o s47G(1)(a)
 - o It has been reported recently in media that Kuiper plan to launch services in Australia from mid 2026.

Noting this is a draft and not yet cleared by Ben, does this cover what you were looking for or would you like us to check in with BEC or NBN Co for further talking points?

Regards,

s22(1)(a)(ii)
