Hi s22(1)(a)

Yeah, I just saw that sorry, for some reason the uploaded file had the global cars not market specific. Please see attached the AU market specific VIN list. Can you please update this for me?

Thank you for your help.

Kind regards

Importance: High

Hi s22(1)(a)

Can you please see the below as I think there has been a mistake in the release of RP1063 to ACCC where it is displaying 9966 cars affected where actually there is only 172 Australian cars affected. Can we get this amended please?

REC-006379 - Polestar Performance AB - Polestar 3 2024 - 2025 | Vehicle Recalls

Kind regards

Subject: Re: REC-006379-Revised Wordings [SEC=OFFICIAL]

Hi s22(1)(a)

Sorry for my delayed reply as I am currently traveling for work.

Everything looks ok with me however the only one light variation I wish to request is the removal of the word "engine" as we are Electric vehicles these do not have engines so if possible could we use the below amendment:

"Additionally, the vehicle may not be able to restart.

What are the hazards?

A loss of safety systems such as power steering assist, pilot and park assist and/or unable to restart the vehicle could increase the risk of an accident causing injury or death to vehicle occupants and other road users."

Thank you,

Kind regards

OFFICIAL

Hi s47F

Just checking if you received the below in ROVER?

please review the below the revised notifications wordings and let me know if you are happy to publish?

What are the defects?

Due to a manufacturing defect, moisture may enter the bumper wiring harness causing corrosion. This could result in reduced efficiency of the power assisted steering and a loss of safety systems such as pilot and park assist features. Additionally, the engine may not be able to restart.

What are the hazards?

A loss of safety systems such as power steering assist, pilot and park assist and/or unable to restart the engine could increase the risk of an accident causing injury or death to vehicle occupants and other road users.

What should consumers do?

Owners of affected vehicles can contact Polestar Customer Support or their nearest authorised Polestar Partner to have the vehicle inspected as soon as possible, and the work carried out, free of charge.

Cheers

OFFICIAL

Good morning s47F and s47 ,

Thank you for your emails regarding the error in the reporting. Not a problem at all.

s47F , I have updated our communication contact list and have included both s47 and s4 in the spreadsheet for future comms.

Hope you both have a great week!

Kind regards,

s22(

OFFICIAL

Thanks s47 .

Hi s22(

Thanks for your email and apologies it appears my progress update had an error. The VIN list and affected number of VINs has not changed since launch of the recall and remains at 436.

I will correct this in the next progress update if that is ok.

Kind regards

s47F

Good morning s22(

Firstly, I apologise for the delay here – I didn't see this e-mail until now!

I will defer to my colleagues s47F and s47F for this one.

As a side note, would it be possible to add s47 and s4 to the contact list for future queries of this nature?

Thanks s22(

OFFICIAL

Good afternoon s47F

I hope you are well.

Thank you for submitting last month's report for Polestar AB to the department.

Could you please confirm if there has been a vin target variance for REC-006379?

Recall	No# of affected Vehicles/components	Total number recalled	Rectified	Written off	Total unrectified in market	Supplier
REC-006379	172	436	327	0	85	Polestar Performance AB

In our system and on the website we have the no. of affected vehicles as 172 vins. I can see that you have reported on 436 vins as total number recalled in your report.

If the VIN target has changed then a new VIN list will need to be supplied for REC-006379 so we can update Rover which then feeds the Recalls Website.

I have attached a VIN list template for your ease of reference if this is the case.

Kind regards

s22(

Hi s47

No worries, I can see that it's a problem on our end, I'll fix this afternoon.

The data you are uploading in the report is correct. On the website it lists 172 vins, and it should be 436 as stated. I'll push through a silent publish tonight and the stated vin count should be 436 vins.

Kind regards,

s22(

Hi s22(

Thanks for your email.

Apologies, I think this is me doing something wrong when I submit the progress reports as the total number of VINs recalled has not changed from the initial submission. I think my confusion is coming in the ROVER system as it doesnt show a field for No# of affected vehicles, so I am not sure where its pulling this number from.

Please see attached full VIN list of affected vehicles. Appreciate if you can have a look to see if it is something I am doing wrong so I can correct my mistake.

I was actually going to submit my monthly report today and this is what I would submit.

Total recalled: 436
Rectified: 407
written off: 0
total unrectified: 24
Total unrectified stock: 5

Kind regards

s47F

Good afternoon s47

The department has received your latest bulk monthly reporting for March 2026

Could you please confirm if there has been an increase in vins for REC-006379?

Recall	No# of affected Vehicles/components	Total number recalled	Rectified	Written off	Total unrectified in market	Supplier
REC-006379	172	436	399	0	30	Polestar Performance AB

In our system we have the no. of affected vehicles as 172 vins. I can see that you have reported on 436 as total number recalled in your report.

Can you please provide an updated vin list using the attached template? I remember reaching out to you last month regarding the same issue. We may not have the correct vins on the website (REC-006379 - Polestar Performance AB - Polestar 3 2024 - 2025 | Vehicle Recalls), so it may be causing a recurring error when you report on 436 vins, as the vins on the website must match the total number recalled. If you could please provide a new template and I can then update the recalls website that would be fantastic, thank you!

Kind regards,

s22(
