

How to download an advisory notice in ROVER

Please note: Before an advisory notice application can be submitted, an applicant or their representative must first create an account in [ROVER](#).

To download or print an advisory notice in ROVER:

1. Under 'My applications' click on the relevant approved NARV (Not a Road Vehicle) application in the 'Submitted applications' section.
2. Press 'download' to access the 'advisory notice'

The screenshot shows the ROVER web application interface. A black box with the number '1' highlights the 'Submitted Applications' section. The interface includes a navigation menu with options like Website, Legislation, Approvals, Payments, Authority to act, Notifications, Recalls, and Profile. Below the navigation menu, there are tabs for 'My Applications', 'New Applications', and 'AVV Verifications'. A dropdown menu is set to 'Lozzak's Luxury Limos'. The 'Submitted Applications' table is as follows:

Application number	Application type	Status	Submitted by	Completed on
SEV-2021-0000225	SEV Entry - New Approval	Draft	Laura Kleinrahm	2021-06-21
TFA-2021-0000455	Testing Facility - Variation	Draft	Laura Kleinrahm	2021-08-25

Below this, there is another table for 'Submitted Applications' (likely a different filter or view):

Application number	Application type	Status	Submitted by	Completed on
CRE-2021-0000439	Concessional RAV Entry - Variation	Approved	Laura Kleinrahm	2021-09-01
CRE-2021-0000440	Concessional RAV Entry - Variation	Paid - Awaiting Assessment	Laura Kleinrahm	2021-09-01
NARV-2021-0000036	NARV - New Approval	Refused	Laura Kleinrahm	2021-06-26
