

How to apply for an Interim SEVs vehicle through ROVER

Before you can apply for an Interim SEVs vehicle, you first need to create an account in [ROVER](#) – our online system that manages all RVS legislation applications and approvals. To act on behalf of someone else – including a registered automotive workshop (RAW) organisation – you must also register an authority to act for that organisation. Instructions on how to create an account are available [here](#).

Once your account and authority to act are created, you can start your application.

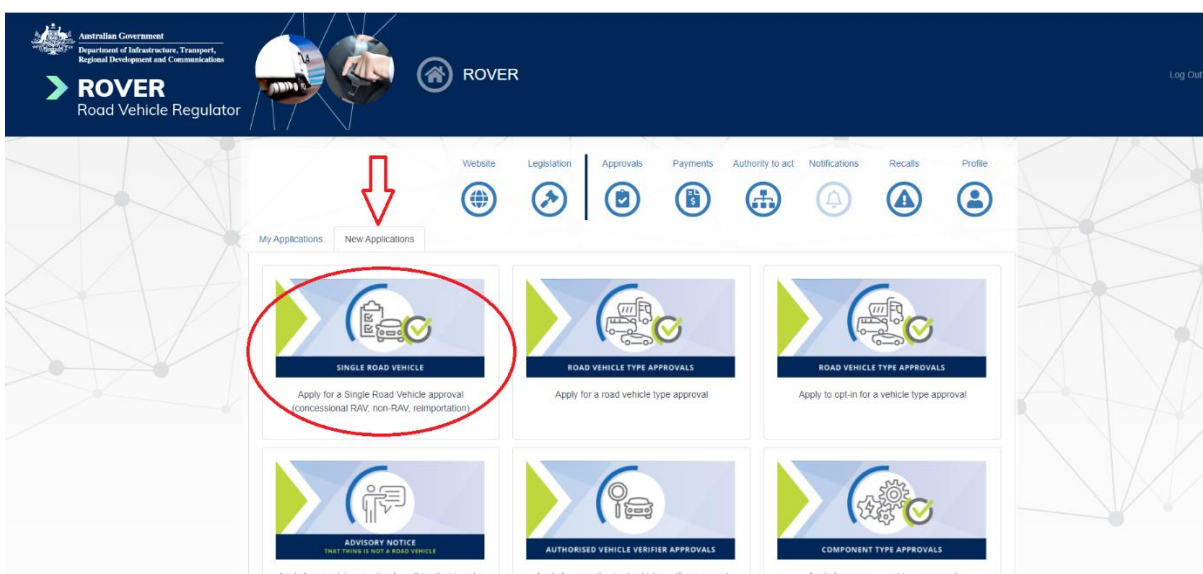

NOTE: All applications for Interim SEVs vehicles must be made by the RAW, or on behalf of the RAW, that will be modifying the vehicle and providing the vehicle inspection certificate (VIC).

Step 1. Authority to act

Once you have created an account in ROVER, if you want to act on behalf of an organisation, you need to upload an authority to act to [ROVER](#). Instructions on how to create an authority to act are available [here](#).

Step 2. Select Single road vehicle

Under the **New Applications** tab, select **Single Road Vehicle** to start your application (see below).

Step 3. Answer the questions

Answer the initial questions and when prompted, confirm you are seeking approval for a specialist or enthusiast vehicle on the SEVs Register (see below).

Step 6. Continue

Continue with the remaining questions in the application, submit and pay the application fee. Applications may take up to 30 business days to approve.

Step 7. Approval

Should you meet the relevant criteria, you will be provided a concessional RAV entry approval with conditions. Concessional RAV entry approval also serves as an import approval.

Step 8. Vehicle inspection certificate

One of the conditions on the approval will be that you send the department a vehicle inspection certificate (VIC) once the vehicle has been modified in accordance with an evidence pack. Send the VIC to the department through the RAWs system. Ensure you include the CRE approval number and the VIN is identical to that document.

If you are making a concessional RAV entry application because you have a vehicle with a previous import approval – but you did not receive identification plate approval before 30 June 2021 – you may submit your VIC through the RAWS system at the same time you make your ROVER application.

Step 9. RAV entry

After the VIC has been approved, your vehicle will be entered onto the Register of Approved Vehicles (RAV) and can be provided to the owner or to the market.

This vehicle will be cancelled from the RAWS system upon RAV entry, therefore no record of the VIN will appear in the RAWS system after approval.
