

Sustainability and Biosecurity services

Delivered by the Department of Primary Industries and Regional Development in the Indian Ocean Territories

April 2022

Services

The Department of Primary Industries and Regional Development – Sustainability and Biosecurity services, on behalf of – and fully funded by – the Australian Government, provides the following services in the Territories:

- Advice supporting agricultural development in the Territories
- Agricultural development services providing licensing, brands, permit and regulatory approvals
- Horticultural advice and services that investigate opportunities to expand commercial horticulture
- Animal welfare services
- Biosecurity services including marine pest surveillance
- Advice on weeds and pests through the Pest and Disease Information Service.

What does this mean for me?

The Department of Primary Industries and Regional Development provides advice and regulatory support to assist the development of agricultural enterprises in the Territories. The aim is to encourage the economic growth of the territories by growing markets, productivity and profitability, while boosting biosecurity and sustaining natural resources.
