

# Workers' compensation and injury management services

Delivered by WorkCover WA in the Indian Ocean Territories

April 2022

## Services

WorkCover WA, on behalf of – and fully funded by – the Australian Government, provides four services to the Territories:

- Dispute resolution: helps resolve employer and worker disputes relating to workers' compensation claims
- Compliance: ensures employer compliance with insurance and claims process legal obligations
- Regulation: monitors approved service provider performance
- Education: educates employers, workers and service providers about workers' compensation and injury management.

## What does this mean for me?

WorkCover WA can provide you with advice on your rights and obligations under the *applied Workers' Compensation and Injury Management Act 1981* (WA).

To protect employers and workers, employers are legally required to obtain and keep current a policy of workers' compensation insurance. WorkCover WA provides advice on how an employer can take out workers' compensation insurance and support a worker if they are injured at work.
