Hi all, I hope you've had a productive and enjoyable week.

s 22(1)(a)(ii) [redacted] and I just wanted to circle back re Kuiper announcement with the Minister. Key points at our end are:

1. In Sydney at the Discovery Centre - heavy on content/visuals, really driving home how impressive the tech is and the opportunities it will provide, and reinforcing the productivity benefits - I understand Amazon will be able to provide some good visuals in that regard

2. Minister, Amazon and NBN Co to speak briefly - will sign post early that we don't yet have the nitty gritty detail, but rather are here to announce the laying of a platform and setting out the roadmap ahead

3. Will take questions, but will be very clear that a process will need to occur before pricing and plan detail is available - what's important is that Australians will have access to more reliable high speed broadband across the country, and

Released under the Freedom of Information Act 1982 by the Minister for Communications

because NBN Co has acted in a decisive and forward thinking manner we will have plenty of runway for a smooth transition from Sky Muster

4. Morning of Tuesday 5 August

Very open to ideas to fill in the gaps - in the meantime, have a great weekend!

Kind Regards
