

Mobile Black Spot Program—Improving Mobile Coverage Round—locations without applications or without recommended solutions

October 2023

Target Location	Reason	Note	Way Forward for Target Locations
Mangrove Mountain, NSW	Ineligible solution	The proposed solution did not materially address the Target Location.	The department is considering options to further test industry solutions at Mangrove Mountain, noting there is a reasonable prospect that a value for money solution may exist.
Majors Creek, NSW	Ineligible solution	The Round did not receive an eligible solution for this location.	The department is considering options to further test industry solutions at Majors Creek, noting there is a reasonable prospect that a value for money solution may exist.
Princes Highway – Ulladulla to Batemans Bay, NSW	Ineligible Solutions	Two separate proposals were received at different locations. They either provided negligible or no new coverage to the target highway.	Receiving improved coverage from two new base stations funded under the Regional Connectivity Program Round 2 (RCP-R2-081)
Bowen Mountain, NSW	Not value for money	The proposed solution did not represent value for money under the Round based on the expected outcomes.	Receiving some improved coverage from new commercial investment.
Queenstown, Tas	Not value for money	The proposed solution was extremely high cost and did not represent value for money under the Round.	Not being progressed further through the IMCR as there is a low chance of success at this time.

Target Location	Reason	Note	Way Forward for Target Locations
Wee Jasper, NSW	Not value for money	The proposed solution was extremely high cost and did not represent value for money under the Round.	Not being progressed further through the IMCR as there is a low chance of success at this time.
Carwoola, NSW	Not value for money	The proposed solution was high cost, and there was a low level of confidence in the viability of the proposed site, and did not represent value for money under the Round.	Not being progressed further through the IMCR as there is a low chance of success at this time. Community-level discussion will explore the viability of alternative sites with mobile carriers.
Breera (Brand Highway), WA	No solution received	No proposal was received for this location.	Not being progressed further through the IMCR as there is a low chance of success at this time.
Brigadoon, WA	No solution received	No proposal was received for this location.	Receiving improved coverage from a new base station funded under the Peri-Urban Mobile Program Round 1 (PUMP-WA-009).
Herne Hill, WA	No solution received	No proposal was received for this location.	Not being progressed further through the IMCR as there is a low chance of success at this time.
Monaro Highway, NSW	No solution received	No proposal was received for this location.	Not being progressed further through the IMCR as there is a low chance of success at this time.
Mount Tomah, NSW	No solution received	No proposal was received for this location.	Receiving improved coverage from a new base station funded under the Regional Connectivity Program Round 2 (RCP-R2-075)
