

**The Administrator  
Australian Territory of Norfolk Island**

### **Statement on NIGC community representatives' progress update**

During the current caretaker period, which continues until a new government is formed following the federal election on 3 May 2025, decisions are not being taken by the Norfolk Island Governance Committee (NIGC). The Australian Government representatives sit as observers only on the Committee in this time.

The Progress Update document which was recently publicly released represents the community representatives' opinions. The update should not be considered as the view of the full Committee.

There will be more news following the election outcome on next steps.

Public information on the NIGC recommendations and the announced governance model is available here: <https://www.infrastructure.gov.au/territories-regions-cities/territories/norfolk-island/norfolk-island-governance-administration/norfolk-island-governance-committee>
