## **Norfolk Island Teacher Consultative Committee – Communique #7**

The Committee met on Thursday 14 October.

The Committee were provided an update from the officials from the Queensland Department of Education who were visiting Norfolk Island. The visit was an information-gathering exercise supporting the ongoing without prejudice scoping and planning work to prepare for a possible transition of education services in 2022.

The Committee requested advice from the Commonwealth on the contingency planning underway to ensure the delivery of education services to Norfolk Island in 2022.

Additional questions received from staff were documented and taken on notice. The Commonwealth confirmed that there are no proposed changes to the employment dates of individual ancillary staff hired under contractual arrangements through to the end of June 2022.

The Committee noted the ongoing work to resolve the critical issues of leave portability and superannuation arrangements.

The Committee will meet again on Thursday 21 October 2021.

Sarah Vandebroek

Chair – Norfolk Island Teacher Consultative Committee
