Yes

**Private Submission**

No

**Published name**

No exemptions from fuel efficiency requirements

**Short comment**

I am disappointed that vehicles with a mass exceeding 3.5 tonnes are set to be exempt from the incoming fuel efficiency requirement. Any law that disincentivises SUVs and small trucks from becoming ever more present on our roads is better for our collective health and well-being. It makes no sense to allow the most polluting vehicles to continue polluting our air and atmosphere. Please include all vehicles in the standard. Thank you.
