1. On Farm Connectivity Program processes

1.1. Introduction

These guidelines contain information for the On Farm Connectivity Program Round 1 grants (rebate).

This document sets out:

- the eligibility criteria
- how we consider and assess grant applications
- how we notify applicants and pay the rebate
- responsibilities and expectations in relation to the opportunity.

The Department of Industry, Science and Resources (the department/DISR) is responsible for administering this grant opportunity on behalf of the Department of Infrastructure, Transport, Regional Development, Communications and the Arts (DITRDCA).

We have defined key terms used in these guidelines in the glossary at section 13.

You should read this document carefully before you fill out an application and undertake project activities.

2. About the grant program

The On Farm Connectivity Program (the program) will run over 2 years from 2023-24 to 2024-25. The program is an election commitment announced as part of Labor's Plan for a Better Future. This program forms part of the Better Connectivity for Rural and Regional Australia Plan (Better Connectivity Plan) and assists primary producers to take advantage of digital agribusiness solutions to boost productivity and improve safety.

The objectives of the program are:

- extend digital connectivity and take advantage of advanced farming technology
- enhance a primary producers' capacity to implement digital agribusiness solutions through improved connectivity
- capitalise on the agricultural sector's potential for increased productivity and growth
- support access to new communications equipment by offsetting some of the cost.

The intended outcomes of the program are:

- increased investment in equipment to support operations of the agricultural sector
- increased efficiency, competitiveness, productivity and profitability of the agricultural sector
- improved safety on farm
- increased use of advanced farming technology
- improved knowledge of advanced farming technology and digital literacy.

Eligible Primary Producers can only access the program (and rebate) through an Eligible Equipment Supplier (you). See section 4 for eligibility requirements.

There will be other grant (rebate) opportunities as part of this program and we will publish the opening and closing dates and any other relevant information on business.gov.au and [GrantConnect](#).

We administer the program according to the [Commonwealth Grants Rules and Guidelines](#) (CGRGs)¹.

¹ <https://www.finance.gov.au/government/commonwealth-grants/commonwealth-grants-rules-guidelines>

3. Grant amount and grant period

3.1. Grants available

The Australian Government has announced a total of \$30 million for the On Farm Connectivity Rebate Program. For Round 1 of the grant (rebate) opportunity, \$15 million is available in 2023-24, or until funding is exhausted, whichever occurs first.

The grant (rebate) amount will be up to 50 per cent of the cost of eligible equipment item/s listed at Appendix B.

- The minimum grant (rebate) amount is \$3,000
- The maximum grant (rebate) amount is \$30,000.

As an eligible Equipment Supplier listed at Appendix A, you can claim up to the maximum rebate amount for each eligible Primary Producer with an ABN.

You can claim more than one rebate where the eligible Primary Producer has multiple properties with a separate ABN for each primary production property.

The eligible Primary Producer is responsible for any remaining eligible and ineligible costs above the rebate amount.

Remaining costs cannot be funded from existing Commonwealth, state, territory and local government grants.

We expect that there may be a high level of interest for this grant (rebate) opportunity and it may be oversubscribed. This is a demand driven grant opportunity. Grants (rebates) will be awarded to eligible applicants on a first come, first served basis in order of application receipt, until the funding is exhausted.

3.2. Project period

You must submit your application and submit your claim for rebate by 31 May 2024.

From the date we notify you that your application is eligible you have up to 60 days to finalise the sale of eligible equipment with the eligible Primary Producer and to submit your claim for the rebate.

4. Eligibility criteria

We cannot consider your application if you do not satisfy all eligibility criteria.

4.1. Who is eligible?

To be eligible you must:

- be an eligible Equipment Supplier listed in Appendix A
- supply an eligible connectivity solution and the associated eligible equipment as listed in Appendix B to an eligible Primary Producer (as defined in Appendix C)
- be able to supply the eligible connectivity solution and associated eligible equipment to the eligible Primary Producer within 60 days of the sale/purchase.

4.2. Additional eligibility requirements

We can only accept applications where:

- the eligible Primary Producer provides a declaration that they meet the eligibility criteria at Appendix C, confirming that they:
 - are a registered business and have an Australian Business Number (ABN)

Eligible primary production activities are defined as those listed in the Australian and New Zealand Standard Industrial Classification (ANZSIC) 2006 (revision 2.0) codes under Division A, Agricultural Forestry and Fishing, Subdivisions 01, 02 and 03.

Table 1: Eligible and ineligible primary production activities

You must submit your application, complete your sale of eligible equipment and make your claim for payment by 31 May 2024.

Failure to submit your claim for the rebate within 60 days of your eligible application notice may require you to reapply for the program.

5.3. What you cannot use the grant for

Expenditure items that are not eligible are:

- home or business internet costs
- insurance, operation and maintenance costs
- items not included in the list of connectivity solutions and associated equipment at Appendix B
- expenditure incurred prior to being notified of your eligibility for the rebate (such as a deposit for eligible equipment)
- costs associated with negotiating a sale (e.g. sales representatives).

6. How to apply

Before applying you should read and understand these guidelines and the sample application forms published on business.gov.au and GrantConnect.

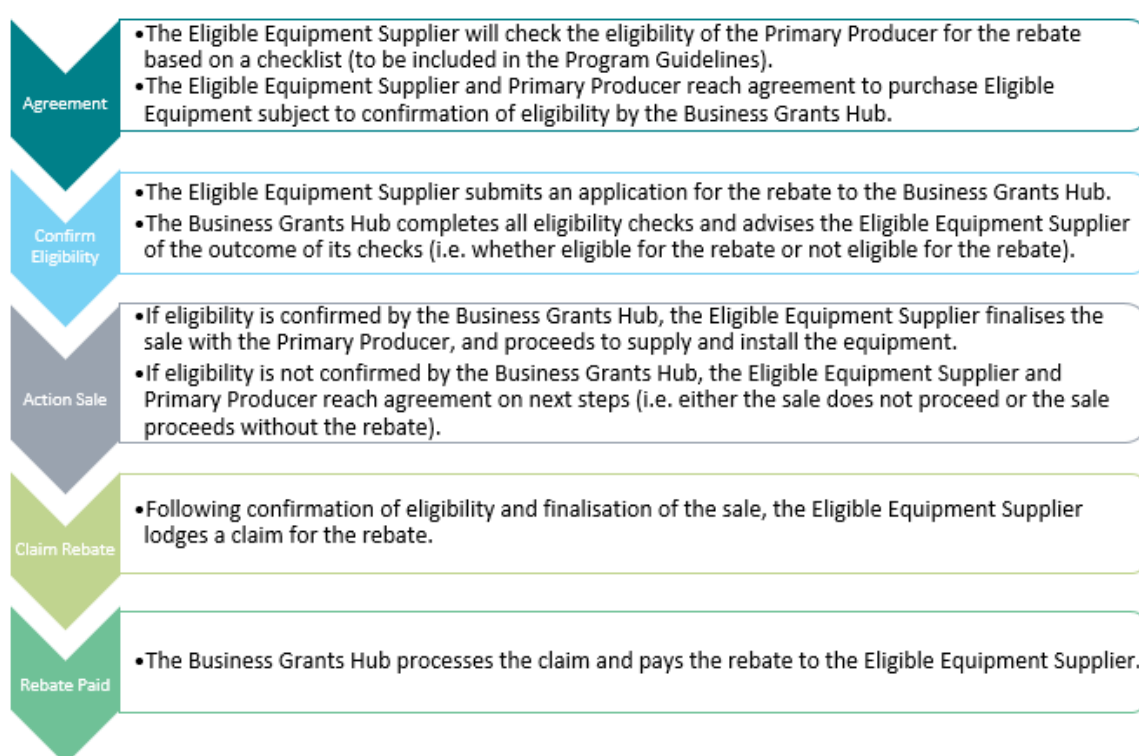

You will need to set up an account to access our [online portal](#).

You can submit an application at any time while the grant opportunity remains open.

To apply, you must:

- complete and submit the application through the [online portal](#)
- provide all the information requested
- address all eligibility criteria.

Figure 1: Program rebate steps for eligible participants

This is a two-step process. Before you enter into a sale of connectivity solutions or equipment with a Primary Producer, we must assess your application to determine your eligibility for the program. This includes the eligibility of the Primary Producer.

As part of the application process, the Primary Producer will be invited through the portal to complete a declaration confirming their eligibility. Your application can not be assessed until this declaration has been received.

You must not undertake the sale with the Primary Producer until you have been notified that you are eligible for the rebate.

If you are notified that your application meets all the eligibility requirements under these guidelines, you will have 60 days to progress the sale of the eligible connectivity solutions and

associated eligible equipment with the eligible Primary Producer and to make your claim for the rebate through our online portal.

Any sales of eligible connectivity solutions and associated eligible equipment made with Primary Producers before you are notified of your eligibility for the program will not be eligible for the rebate.

We will notify you if you are not eligible for the rebate.

You can view and print a copy of your submitted rebate application on the portal for your own records.

You are responsible for making sure your rebate application is complete and accurate. Giving false or misleading information is a serious offence under the *Criminal Code Act 1995* (Cth). If we consider that you have provided false or misleading information we may not progress your application. If you find an error in your application after submitting it, you should call us immediately on 13 28 46.

After submitting your application, we can contact you for clarification if we find an error or any missing information, including evidence that supports your eligibility.

The acceptance of any additional information provided after the submission of your application is at the discretion of the Program Delegate. Additional information should not materially change your application at the time it was submitted and therefore may be refused if deemed to be purely supplementary.

If you need further guidance around the application process, or if you have any issues with the portal, contact us at www.business.gov.au/contact-us or by calling 13 28 46.

6.1. Timing of grant opportunity

You can only submit an application between the published opening and closing dates. We cannot accept late applications.

You can submit an application at any time while the grant opportunity remains open.

If you are notified that you are eligible for the rebate you must:

- complete the sale of the eligible connectivity solutions and associated eligible equipment item/s with the eligible Primary Producer within 60 days of receiving notice of your successful application.

The closing date may be announced after you are notified that you are eligible for a rebate. If this occurs, you will still have 60 days after the notification to complete the sale and claim the rebate.

Table 2: Expected timing for this grant opportunity

7. The grant selection process

Your application will be considered through a demand driven grant process. Applications will be reviewed in order of receipt until available funding is exhausted.

We will review your application against the eligibility criteria.

If we identify unintentional errors in your application, we may contact you to correct or clarify the information.

The Program Delegate will not approve funding if there are insufficient program funds available.
