

Correcting information on the RAV

ROVER guide

June 2026

This guide explains how to notify the department about one or more errors on the Register of Approved Vehicles (RAV) and how to check the status of your request and identify any errors.

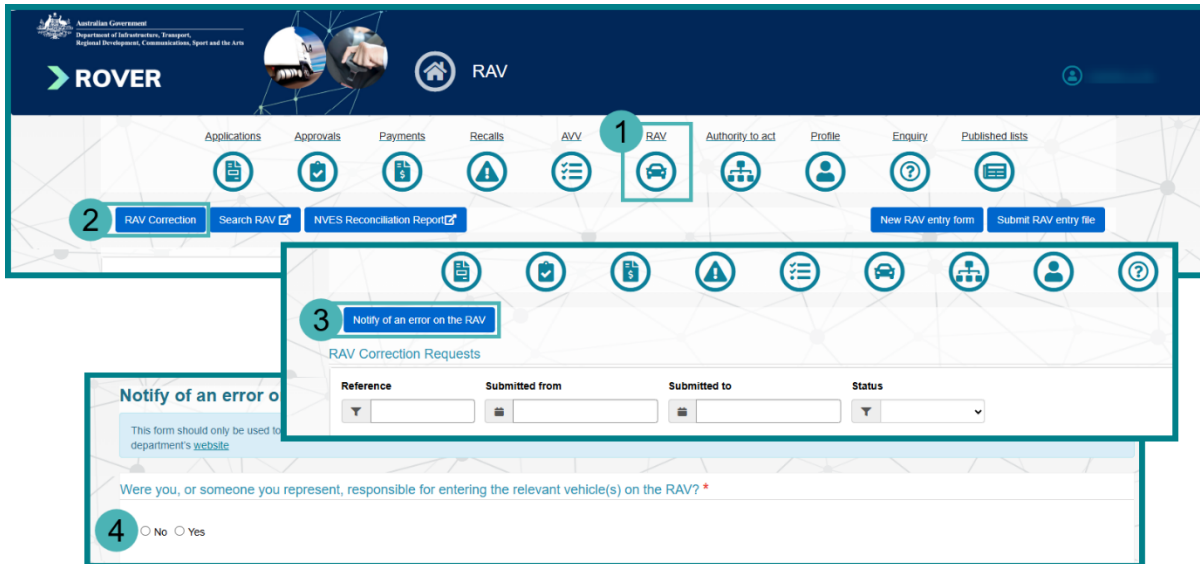

Follow these instructions to notify us of an error in single or multiple RAV entries. You can complete all the form fields manually or upload the RAV entry details in ROVER using [ROVER template: Bulk RAV corrections](#).

Once we have assessed and accepted your request, the RAV entry will be updated with the amended information provided in your request.

Notify us of a correction

To **notify us of a correction**, ensure you are signed in to ROVER (navigate to [Welcome to ROVER](#) and select the **Sign in** button) and complete the following steps.

1. Select the **RAV** icon. You can also access the RAV corrections button through the AVV page.
You can also access the RAV corrections button through the AVV page.
2. Select the **RAV Correction** button.
3. Select the **Notify of an error on the RAV** button.
4. Select the relevant **checkbox** to identify whether you, or someone you represent, is responsible for entering the relevant vehicle(s) on the RAV?
5. Provide the error details by following the steps on how to [complete the form fields](#) or [upload a bulk RAV corrections template](#).

Complete the form fields

To provide the RAV error details by completing the form fields, ensure you have the vehicle's **Approval number, VIN and Entry pathway** details that are currently published on the RAV. You can check these details by searching the [RAV Public Search site](#) for the vehicle record using the vehicle's VIN.

1. Select the **Provide details on this form** checkbox.
2. Select the **Add** button.
3. Enter the current **Approval number**.
4. Enter the current **VIN**.
5. Select the **Entry pathway** from the dropdown options.
6. Select the **Search** button to find the RAV Entry.
Review the RAV entry to ensure it is the correct record.
7. Select the **Edit** button at the bottom of the pre populated field.

Would you like to provide details on this form, or by uploading a bulk RAV amendment using the [bulk RAV amendment template](#) ? *

Upload a bulk RAV corrections template

To provide the RAV error details by uploading a CSV file, ensure you have downloaded [ROVER template: Bulk RAV corrections](#). Fill in all the relevant vehicle details for the RAV entry, even if the existing information is accurate. If a field does not apply to your vehicle, or you need to remove a field value, leave the field blank. If

OFFICIAL

you need to correct the VIN, approval number or entry pathway, you will also need to enter the corrected values in columns Y, Z or AA.

Save the file to your device in CSV file format and follow these steps:

1. Select the **Upload using a bulk amendment template** checkbox.
2. Select the **Upload** button.
3. Select the **Choose File** button.
4. Select the saved CSV file from your device.
5. Select the **Open** button.
6. Select the **Upload** button.
7. Next, follow the instructions on how to [Provide supporting information](#).

Provide supporting information

To provide supporting information that **demonstrates that this is an error requiring correction**, you can complete the free text field manually or upload supporting documentation.

1. Enter the information in the **free text field**.
2. Upload the relevant documents:
 - a. Select the **Upload** button.
 - b. Select the **Choose File** button.
 - c. Select a .pdf, .jpg, .png or .bmp type from your device.
 - d. Select the **Open** button.
 - e. Select the **Upload** button.

3. Select the **checkbox** to confirm you **understand that it is a contravention of section 32 of the Road Vehicle Standards legislation to provide false or misleading information.**
4. Select the **Submit** button.

Please provide details or upload documentation to demonstrate that this is an error requiring correction. For further information and forms of evidence we require please review the [guidance note](#) available on the department's website.*

Check the error reason of an invalid RAV correction request

An **invalid** status means that the RAV Correction request contained one or more errors and did not pass the system validations. You will need to resubmit your RAV Correction request without errors by following the steps outlined under [Notify us of a correction](#). To check why a submitted RAV Correction request is invalid, complete the following steps.

1. Select the **RAV** icon.
2. Select the **RAV Corrections** button.
3. View the error using one of the following methods:
 - a. In the **RAV Corrections Items - Errors** table, you will be able to view the individual **Error Message**.

The screenshot shows the RAV Correction system interface. At the top, there is a navigation bar with the RAV icon highlighted (1). Below the navigation bar, there is a section for RAV Correction Requests with a button labeled 'Notify of an error on the RAV' (2). A table below shows a list of requests, with one request highlighted (3) and its details view open (a). The details view shows a table of Invalid Items with a 'View Errors' button.

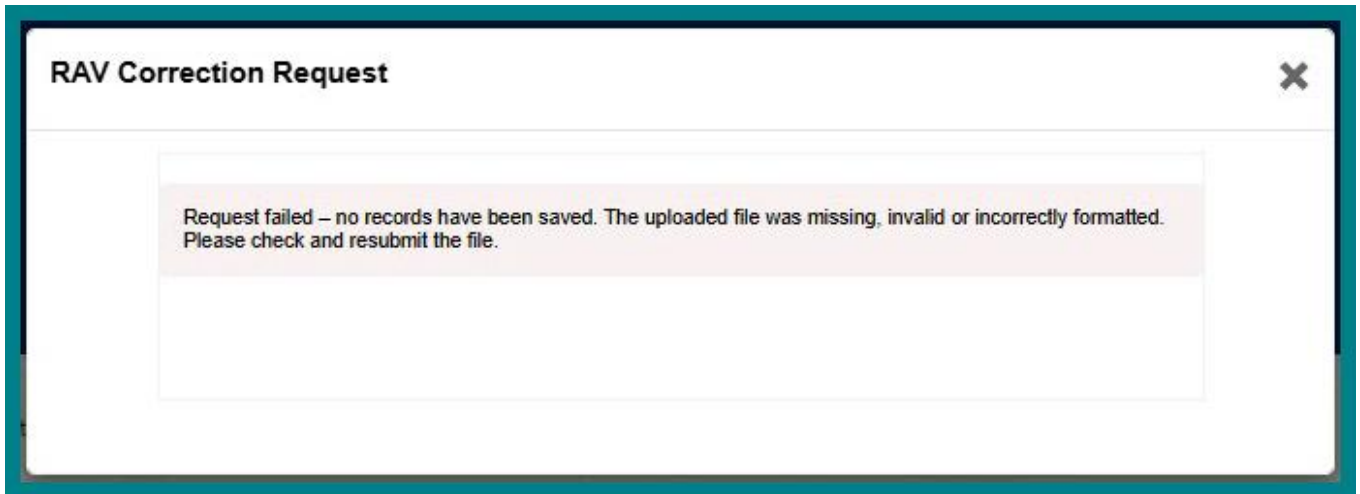

- b. In the **RAV Corrections Requests** table, you will be able to view all errors related to a RAV Correction request. Select **Item Details** from the action menu and then select **View Error** from the action menu.

The screenshot shows the 'RAV Correction Items - Errors' table. The table has columns for Reference, VIN, Approval Number, Entry Pathway, Error Message, and Created On. Two error messages are displayed:

Reference	VIN	Approval Number	Entry Pathway	Error Message	Created On
RAVC-00506	6ZZZZZJSKDJF02061	CRE-000016	CONCESSIONAL - RAWS - SECOND STAGE MANUFACTURE	Motive Power must be provided for this vehicle category	11/05/2026 11:40 AM
RAVC-00506	6ZZZZZJSKDJF02061	CRE-000016	CONCESSIONAL - RAWS - SECOND STAGE MANUFACTURE	Authorised By Name Rover 9.1 AVV does not match the associated authorised vehicle verifier approval holder	11/05/2026 11:40 AM
