

Ways to contribute

My contribution

Free services special times allocated for disabilities and seniors only

Block off areas in train to be seated safe and lots of access security to be available for them to assist at all times if needed

Some people with disabilities don't like lots of people or noises around them

Holidays trips on public transport for disabilities or special day visits to zoo or other parks any outdoor activities that they can get to as groups on a service allocated to them

Have a train just for people with disabilities

Clear signals for help for those who can't read or communicate probably

Special exit and entries there is so much extras to be done to make them comfortable

Good luck
