# About the Regulatory Report

The Regulatory Report provides statistics on Road Vehicle Standards (RVS) regulatory activities conducted by the Department of Infrastructure, Transport, Regional Development, Communications, Sport and the Arts (the department).

This report provides information on regulatory activities that occurred between October and December 2025. It also provides data on some activities that occurred during the past 12 months. Regulatory activities include the number of vehicles on the Register of Approved Vehicles (RAV), application assessment timeframes, recalls, compliance and enforcement matters, and stakeholder engagement and enquiries.

We recommend you read our findings in conjunction with the explanatory notes provided at [Appendix B](#).

# Register of Approved Vehicles

**Table 1: Vehicles entered on the Register of Approved Vehicles**

Date	Vehicles on the RAV
1 October to 31 December 2025	436,607
<b>Total number of vehicles</b>	<b>6,182,460</b>

Source notes.

1. Number of vehicles entered on the RAV include active vehicles only.
2. Total number of vehicles on the RAV is from 1 July 2021 to 31 December 2025.
3. See [Explanatory notes](#) for details.

# Application numbers

**Table 2: Total number of applications decided by application type in this quarter**

Application type	Applications decided
Vehicle type approval	1,181
Concessional RAV entry approval	8,122
Component type approval	68
Authorised vehicle verifier approval	5
Model Report approval	137
Registered automotive workshop approval	13
Specialist and Enthusiast Vehicles Register entry	65
Testing facility approval	38
Non-RAV entry import approval	415
Re-importation import approval	139
Advisory notice (not a road vehicle)	441
<b>Total</b>	<b>10,624</b>

Source notes.

1. Total number of all applications decided from 1 October to 31 December 2025.
2. See [Explanatory notes](#) for details.

# Application assessment timeframes overview

**Figure 1: Total number of applications decided by legislated timeframe in the past 12 months**

Source notes.

1. Total number of all applications decided from 1 January 2025 to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

**Figure 2: Median processing days for application types with a 30-day legislated timeframe in the past 12 months**

Source notes.

1. Total number of all application types with a 30-day legislated decision timeframe and decided from 1 January 2025 to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

**Figure 3: Median processing days for application types with a 60-day legislated timeframe in the past 12 months**

Source notes.

1. Total number of all application types with a 60-day legislated decision timeframe and decided from 1 January 2025 to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

# Application assessment timeframes in this quarter

## Assessment timeframes for applications with 30-day legislated timeframe

**Figure 4: Processing days for all application types with a 30-day legislated timeframe in this quarter**

Source notes.

1. Total number of all application types with a 30-day legislated decision timeframe and decided from 1 October to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

**Figure 5: Processing days for concessional RAV entry approval applications in this quarter**

Source notes.

1. Total number of concessional RAV entry approval applications decided from 1 October to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

**Figure 6: Processing days for authorised vehicle verifier approval applications in this quarter**

Source notes.

1. Total number of authorised vehicle verifier approval applications decided from 1 October to 31 December 2025.
2. Timeframe only includes processing days from the last submission to the decision date and excludes any previous submissions for the same application.
3. See [Explanatory notes](#) for details.

**Figure 7: Processing days for registered automotive workshop approval applications in this quarter**

# Appendix B – Explanatory notes

## Register of Approved Vehicles

Data on the RAV was sourced from ROVER on 1 January 2026.

The number of vehicles entered on the Register of Approved Vehicles (RAV) includes active vehicles only. The term ‘active vehicles’ refer to vehicles on the RAV at the time the data is sourced from ROVER.

Occasionally, vehicles are requested to be removed from the RAV and when this happens, they are made inactive. Therefore, this report includes data on active vehicles only to provide a more accurate representation of the number of vehicles on the RAV.

## Applications and assessment data source and reporting period

Data on applications and their assessment was sourced from ROVER via the department’s Ready Access to Data Analytics and Reporting (RADAR) data management system on 3 January 2026. It includes data on decided applications (new, varied and resubmitted) and excludes data on applications still under assessment.

## New and variation applications

A new application is an application that has been submitted for the first time.

A variation application is when an approval holder applies to make a change to an existing approval.

## Application assessment day and legislated timeframes

An assessment day is counted as a business day in the Australian Capital Territory. A business day under section 5 of the [Road Vehicle Standard Rules 2019](#) means a day that is not a Saturday, Sunday or public holiday in the Australian Capital Territory.

The processing time starts the day after the date the application is submitted and paid. However, if an application was submitted, assessed and decided on the same day, it is counted as one processing day.

The assessment clock pauses when the department makes a request for information (RFI) and then resumes after the applicant responds to the RFI.

The RVS legislation does not apply a formal timeframe for the department to assess variation applications. However, the department assesses variation applications in line with the legislated timeframe for each applications type.

The legislated timeframe for processing vehicle type approval, component type approval and Model Report approval applications is 60 business days. All other application types are 30 business days, including advisory notices, which are subject to a service charter timeframe of 30 business days.

## Application decision types

The types of decisions that can be made on an application include the following:

- grant an approval
- refuse to grant an approval
- enter a vehicle on the Specialist and Enthusiast Vehicles Register
- refuse to enter a vehicle on the Specialist and Enthusiast Vehicles Register

- issue an advisory notice that a thing is not a road vehicle
- refuse to issue an advisory notice that a thing is not a road vehicle
- refuse to consider an application.

## Compliance and enforcement

Data on compliance and enforcement activities was sourced from ROVER on 3 January 2026.

An approval revocation or suspension can be enforced or voluntary.

An enforced revocation or suspension occurs when the department decides, in certain circumstances, that an approval should be revoked or suspended.

An approval holder may voluntarily request to have their approval suspended or revoked for several reasons. An approval holder may decide to suspend or revoke their approval after having discussions with the department, if they are making substantial changes to their business operations or decide not to continue with the purchase or import of a vehicle.

## Compulsory and voluntary recalls

Data on compulsory and voluntary recalls was sourced from ROVER on 1 January 2026.

A compulsory recall occurs (rarely) when the Minister exercises the power to issue a compulsory notice for road vehicles or approved road vehicle components of a particular kind where it appears such vehicles or components:

- will or may cause injury to any person through use (or misuse), or
- do not or it is likely that they do not comply with relevant standards, and
- one or more suppliers of such vehicles or such components have not taken satisfactory action to prevent injury or resolve non-compliance.

A voluntary recall is usually undertaken by the entity, whether an individual in business or a company, responsible for the supply of a vehicle or component for the first time to the Australian market through trade or commerce. However, it may also be appropriate for another entity in the supply chain to undertake the recall action.

## Published recalls

Data on published recalls was sourced from ROVER on 1 January 2026.

Recalls are notified to the department, the hazard and defect wording is negotiated with (and agreed to by) suppliers, and the recall is prioritised based on a risk assessment to establish performance benchmarks that inform performance monitoring until closed.

## Recalls identified in performance reviews

Sections of the industry are audited to establish recall underperformance and conduct performance discussions. The data has been drawn from the audit findings.

## Risk Assessment Reviews

Risk assessments for open recalls are periodically reviewed to maintain their current priority, which informs performance review action.

## Enquiries

Enquiries include those received by the ROVER Level 1 Support team. Enquiry data was sourced from ROVER, the department's telephony system and emails on 2 January 2026.

## Stakeholder engagement activities

Stakeholder engagement activities include events that were either hosted by the Vehicle Safety Operations Branch or Vehicle Safety Policy and Partnerships Branch or organised by an external RVS stakeholder. This report does not include stakeholder consultation activities relating to specific activities, for example, vehicle standards being made or amended or framework reviews.
