Subject: Orana Estate Clyde North

Hi

I bought land in Orana Estate Clyde North in 2020 and am just about to move in nearly 3 years later. In this time I would have expected there to be telecommunications made available to this growing Estate. However, even now I can't make or receive a phone call from within 3kms of our house.

I am a Chief Operations Manager of a Aged Care, Disability organisation who is on call 24/7. I need to be available when my Clients may of whom are needing immediate support call.

New developments have a obligation to new residents to make sure telecommunications are available. We have people like myself, aged people, people with disabilities and life threatening conditions moving to these estates and there must be the ability to make a simple phone call.

Thanks

Tracey [REDACTED]
