Department of Infrastructure, Transport,
Regional Development and Communications

SURFACE TRANSPORT POLICY DIVISION / VEHICLE STANDARDS

Import approval

Type approved vehicles

November 2021

This letter confirms, in accordance with section 22 of the *Road Vehicle Standards Act 2018* (the Act), the holder of a road vehicle type approval, or a person authorised by the approval holder, is permitted to import a road vehicle to which the approval applies.

A road vehicle type approval is provided by the Department of Infrastructure, Transport, Regional Development and Communications for new vehicle types that satisfy the requirements of the Road Vehicle Standards legislation. The purpose of the approval is to allow the provision of the vehicle type to the Australian market.

Road vehicle type approvals, which in some cases will be a letter of advice that a vehicle type approval is taken to have been granted under the *Road Vehicle Standards (Consequential and Transitional Provisions) Act 2018*, will set out the make, model and variants of the type of vehicle covered by the approval.

The currency of a road vehicle type approval can be confirmed at: <https://rover.infrastructure.gov.au>

For further information on the road vehicle type approval framework, or a particular road vehicle type approval contact the department at www.infrastructure.gov.au/vehicles-contactus.
