Subject: Submission to noise regulation review [SEC=UNCLASSIFIED]

Sensitivity: Normal

Comment: We use Wing delivery services and it is fantastic. Depending on the ambient noise, the hum of the drone can be heard from a significant distance when you are outside; however, you have to be listening for it to notice it. As it comes in to a height to lower the products we purchased, it becomes louder; though is not offensive, can still talk comfortably and it leaves quickly. The whole process is less than 30 seconds and if you are in the house, it is barely audible.
