Subject: Submission to noise regulation review [SEC=UNCLASSIFIED]

Sensitivity: Normal

Comment: I've made a few complaints over noise and the so called "fly friendly" time issues. With the circuit training conducted every day of the week, around and around and around. The constant drone or screaming of the planes sometimes flying lower than what they are legally allowed to be. There isn't any enforced regulations to their behavior. All letters come back saying it's fly friendly hours of flying. NOT GOOD ENOUGH and all the planes follow sound and height regulations. UNTRUE.. Some people live under this and also work under it. Too much for a populated area with schools, homes, shopping centres, etc. Something bad will happen soon, then what? Personally this should be moved to the rural outskirts.
