Regional Development and Communications**

INTERRUPTION TO ELECTRICITY SUPPLY

**FROM: 10.00PM THURSDAY 28 MAY 2020
TO: 6.00AM FRIDAY 29 MAY 2020**

To all residents of Jervis Bay Territory

There will be an interruption to the electricity supply to the whole of the Territory overnight from 10 PM on Thursday 28 May 2020 to 6 AM on Friday 29 May 2020.

This is necessary for the installation of vital equipment at two substations, and requires isolation of the incoming high voltage line.

To minimise inconvenience the works will be conducted after hours. Further, the contractors will work as quietly as possible but there may be some noise near the works.

I apologise in advance for the inconvenience caused. Your patience and understanding is appreciated.
