

#### INDEPENDENT AUDITOR'S REPORT

To:

The Minister for Finance of the Government of Norfolk Island;
The Commonwealth Minister for Regional Australia, Regional Development and
Local Government; and
The Administrator of the Territory of Norfolk Island

#### Report on the Financial Statements

I am required by section 48C of the *Norfolk Island Act 1979* to audit the accompanying financial statements of the Administration of Norfolk Island and the consolidated entity for the year ended 30 June 2012, which comprise: a statement by the Chief Minister (Minister for Finance) and Chief Executive Officer; Statements of Comprehensive Income; Balance Sheets; Statements of Changes in Equity; Cash Flow Statements; Schedules of Commitments and Contingencies; and Notes to and Forming Part of the Financial Statements, including a Summary of Significant Accounting Policies. The consolidated entity comprises the Administration of Norfolk Island, the Norfolk Island Hospital Enterprise and the Norfolk Island Government Tourist Bureau.

#### Minister for Finance's Responsibility for the Financial Statements

The Minister for Finance of the Government of Norfolk Island is responsible for the preparation of the financial statements that give a true and fair view in accordance with the Commonwealth Finance Minister's (Norfolk Island) Orders 2011 made under the Norfolk Island Act 1979, including the Australian Accounting Standards, and for such internal control as is necessary to enable the preparation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, I was not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

#### Independence

In conducting my work, I have followed the independence requirements of the Australian National Audit Office, which incorporate the requirements of the Australian accounting profession.

#### **Basis for Disclaimer of Opinion**

The Administration of Norfolk Island has prepared cash flow forecasts that indicate significant net cash outflows from operations of approximately \$4.4 million, \$4.7 million and \$5.0 million for the 2013-14, 2014-15 and 2015-16 financial years respectively. These forecasts indicate that the Administration of Norfolk Island may not be able to meet all its financial obligations beyond June 2013.

Note 1.3 discloses that the ANI is currently experiencing financial difficulty due to losses incurred in previous years from continuing economic downturn, a decline in tourism and losses incurred from the Airline operation. Financial assistance, subject to conditions, to enable the Administration of Norfolk Island to meet its expenditure commitments has been received from the Commonwealth of Australia in each of the years 2010-11 and 2011-12 and for 2012-13.

Note 1.3 also discloses that the Commonwealth of Australia's funding commitments end at 30 June 2013. At the date of this report, no further financial assistance has been negotiated. Further, Note 1.3 states that in the event that the Administration of Norfolk Island does not obtain additional funding from the Commonwealth of Australia and/or reduce expenditure in line with available revenue, the Administration of Norfolk Island may not be able to continue its operations as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the financial statements. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Administration of Norfolk Island to continue as a going concern.

I therefore have not been provided with sufficient audit evidence upon which to form an opinion on whether the application of the going concern assumption remains appropriate.

#### Disclaimer of Opinion

Because of the significance of the matters described in the Basis of Disclaimer of Opinion paragraph, I have not been able to obtain sufficient appropriate audit evidence to provide the basis for an audit opinion. Accordingly, I do not express an opinion on the financial statements of the Administration of Norfolk Island or the consolidated financial statements.

# Financial Statements 2011/12

Administration of Norfolk Island

## Administration of Norfolk Island

# STATEMENT BY THE CHIEF MINISTER (MINISTER FOR FINANCE) AND THE CHIEF EXECUTIVE OFFICER

In our opinion, the attached consolidated financial statements for the year ended 30 June 2012 are based on properly maintained financial records and give a true and fair view of the matters required by the *Public Moneys Act 1979*, the *Public Moneys Amendments Act 2004* and the Commonwealth Finance Minister's (Norfolk Island) Orders 2011 made under the *Norfolk Island Act 1979*.

Signed.

The Hon David E. Buffett AM MLA

Chief Minister

Minster for Finance

Government of Norfolk Island

Mr. Graeme Faulkner

Chief Executive Officer
Administration of Norfolk Island

#### Note 1: Summary of Significant Accounting Policies

#### 1.1 Objectives of the Administration of Norfolk Island and Territory Authorities (the Group)

The Administration of Norfolk Island (Administration) is governed by the Norfolk Island Act 1979. The primary objective of the Administration is to provide services to the public of Norfolk Island.

The financial statements represent all public monies and transactions of the Government of Norfolk Island. The financial statements of the Administration combine the financial statements of the Revenue Fund, Government Business Enterprises and the Trust Fund. The Government Business Enterprises include six entities that have been designed as profit oriented with the remaining eleven entities designated as public benefit entities. The Revenue Fund and Trust Fund are designated as public benefit entities.

For the purposes of AASB 127 Consolidated and Separate Financial Statements, these consolidated financial statements are prepared to include the Administration and each Territory Authority (refer to Note 1.6).

#### 1.2 Basis of Preparation of the Financial Statements

The financial statements are general purpose financial statements and are required by section 48B of the Norfolk Island Act 1979.

The Administration and the Group's Consolidated Financial Statements have been prepared in accordance with:

- a) Commonwealth Finance Minister's (Norfolk Island) Orders 2011 (CFMOs) for reporting periods ending on or after 1 July 2011; and
- b) Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest dollar unless otherwise specified.

Unless an alternative treatment is specifically required by an accounting standard or the CFMOs, assets and liabilities are recognised in the Balance Sheet when and only when it is probable that future economic benefits will flow to the Administration or a future sacrifice of economic benefits will be required and the amounts of the assets or liabilities can be reliably measured. However, assets and liabilities arising under executory contracts are not recognised unless required by an accounting standard. Liabilities and assets that are unrecognised are reported in the Schedule of Commitments or the Schedule of Contingencies.

Unless alternative treatment is specifically required by an accounting standard, income and expenses are recognised in the Statement of Comprehensive Income when and only when the flow, consumption or loss of economic benefits has occurred and can be reliably measured.

#### 1.3 Going Concern

The Administration and the Group's Consolidated Financial Statements have been prepared on a going concern basis which contemplates the realisation of assets and settlement of liabilities in the ordinary course of business. The Administration is currently experiencing financial difficulty due to losses incurred in previous years from continuing economic downtum, a decline in tourism and losses incurred from the Airline operation. In the 2010/11, 2011/12 and 2012/13 financial years, the Commonwealth of Australia has provided financial assistance to ensure the Administration has sufficient funds to meet expenditure commitments. Each of the annual funding injections have been subjected to conditions. To date all conditions have been met by the Norfolk Island Government, except for the balance of the 2012/13 financial year, which is yet to conclude.

The Administration has forecast significant negative net cash flows from operations to total \$4.4 million in 2013/14, \$4.7 million in 2014/15 and \$5.0 million in 2015/16. The Commonwealth of Australia's current funding commitments ends at 30 June 2013, and at the date of signing these financial statements, no further financial assistance has been negotiated. These conditions give rise to a material uncertainty that may cast significant doubt upon the Administration's ability to continue as a going concern.

In the event that the Administration does not obtain additional funding from the Commonwealth of Australia and/or reduce expenditure in line with available revenue, the Administration may not be able to continue its operations as a going concern and therefore may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the financial statements. Nevertheless, there is no intention by the management of the Administration, or the Government of Norfolk Island, to cease the operations of the Administration or the Group, or liquidate any assets. The rationale for this position is the fact that the Government of Norfolk Island and the Honourable Simon Crean, MP, Minister for Regional Australia, Regional Development and Local Government have together committed to a long term sustainability strategy for Norfolk Island, "The Roadmap", which was signed on 2 March 2011.

#### 1.4 Significant Accounting Judgements and Estimates

In the process of applying the accounting policies listed in this note, the Administration has made the following judgements and estimates that have the most significant impact on the amounts recorded in the financial statements include:

- a) the fair value of land and buildings and property, plant and equipment has been taken to be the market value of similar properties as
  determined by an independent valuer. In some instances, the Administration's buildings are purpose-built and may in fact realise more or
  less in the market;
- b) the relevant government bond rate has been used to discount non-current liabilities in accordance with the CFMOs;
- c) the liability for long service leave has been estimated using present value techniques in accordance with the Commonwealth shorthand method. This takes into account expected salary growth, attrition and future discounting using the Commonwealth bond rates;
- d) the fair value of land has been taken to be the market value of similar assets as determined by an independent qualified valuer. The fair value of individual land parcels is considered representative on their existing use and the fundamental assumption that they could be sold on a freehold basis;
- e) the fair value for buildings, property, plant and equipment of the Administration has been taken to be the market value of similar assets, having regard to a depreciated replacement cost analysis, as determined by an independent valuer. Where possible the valuer endeavoured to identify comparable assets with a similar age, condition and specification to the assets listed and utilised a direct comparison basis as a primary method, with a depreciated replacement cost approach as a secondary method. Given the specialist nature of many of the assets heavy reliance on a depreciated replacement cost analysis has been necessary;
- f) estimates are made in determining value-in use for impairment purposes taking into account significant changes with an adverse effect on the condition of an asset, physical damage, and the manner in which the asset is expected to be used;

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

#### 1.5 New Australian Accounting Standards

#### Adoption of New Australian Accounting Standard Requirements

No accounting standard has been adopted earlier than the application date as stated in the standard.

There were no new standards, revised standards, interpretations or amending standards issued prior to the sign-off date that were applicable to the current reporting period and had a financial impact on the Administration.

Other new standards, revised standards, interpretations or amending standards that were issued prior to the sign-off date and are applicable to the current reporting period did not have a financial impact, and are not expected to have a future financial impact on the Administration.

#### Future Australian Accounting Standard Requirements

The following new standards, revised standards, interpretations and amending standards were issued by the Australian Accounting Standards Board prior to the sign-off date, which are applicable to the Administration for future reporting periods:

AASB 9 Financial Instruments

AASB 13 Fair Value measurement

AASB 119 Employee Benefits

AASB 2010-7 Amendments to Australian Accounting Standards arising from the

AASB 2011-8 Amendments to Australian Accounting Standards arising from the

AASB 2011-10 Amendments to Australian Accounting Standards arising from the

AASB 2012-5 Amendments to Australian Accounting Standards arising from the

No other new standards, revised standards, interpretations, or amending standards that were issued prior to the sign-off date and are applicable to the future reporting period are not expected to have a future financial impact on the Administration.

#### 1.6 Consolidation

AASB 127 Consolidated and Separate Financial Statements requires a parent entity that is in a group to present consolidated financial statements that consolidate its controlled entities. The parent and controlled entities apply consistent accounting policies and the effects of all transactions and balances between the entities are eliminated in full. The financial statements of the controlled entities are prepared for the same reporting period as the parent entity. In accordance with clause 16(1)(c) of the CFMO's, the Administration is deemed to control each Territory Authority.

These consolidated financial statements incorporates the assets and liabilities of the Administration and each Territory Authority.

As at 30 June 2012, the Territory Authorities included the Norfolk Island Hospital Enterprise and the Norfolk Island Government Tourist Bureau.

#### 1.7 Revenue

#### Sale of Goods and Rendering of Services

Revenue from the sale of goods is recognised when:

- a) the risks and rewards of ownership have been transferred to the buyer;
  - b) the entity retains no managerial involvement or effective control over the goods;
  - c) the revenue and transaction costs incurred can be reliably measured; and
- d) it is probable that the economic benefits associated with the transaction will flow to the entity.

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- a) the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- b) the probable economic benefits associated with the transaction will flow to the entity.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

#### <u>Interest</u>

Interest revenue is recognised using the effective interest method as set out in AASB 139 Financial Instruments: Recognition and Measurement.

#### Taxation Revenue

Taxation revenue is received through the exercise of the authority granted to the Administration. Where possible, taxation revenue is recognised at the time control over the asset passes to the Administration.

Revenue Type	Revenue Recognition Point
Stamp duties	When the liability to the Administration is incurred
Customs and excise duty	When goods become subject to duty
Goods and Service Tax	When the liability to the Administration is incurred
Other indirect taxes	When the debt to the Administration arises

#### Fees and Fines

Revenues resulting from regulatory fees and levies are, where possible, recognised when the transaction or event giving rise to the revenue occurs.

#### Royalties

Royalties are recognised on an accrual basis in accordance with the subsections of the relevant royalty agreements.

#### <u>Grants</u>

Grant funding is recorded as revenue at the time control over the asset passes to the Administration.

#### 1.8 Gains

#### Revenue from Government

Funding received from the Commonwealth of Australia is recognised as revenue when the Administration gains control of the funds.

#### Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition.

#### Sale of Assets

Gains from disposal of non-current assets are recognised when control of the asset has passed to the buyer.

#### 1.9 Employee Benefits

Liabilities for short-term employee benefits (as defined in AASB 119 Employee Benefits) and termination benefits due within twelve months of the end of reporting period are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits are measured as net total of the present value of the estimated future cash outflows to be made in respect of services provided by employees up to the reporting date.

#### Leave

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will apply at the time the leave is taken, to the extent that the leave is likely to be taken during service rather than paid out on termination.

The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

#### Separation and Redundancy

The Administration recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

#### Superannuation

Permanent employees of the Administration are eligible to contribute to the Norfolk Island Provident Account. The Norfolk Island Provident Account is a defined contribution superannuation scheme. Superannuation contributions are deposited into a term deposit account by the Administration on behalf of members. The Norfolk Island Provident Account does not form part of the Administration and is not recognised in the financial statements.

#### 1.10 Grants and subsidies

When grants and subsidies are discretionary until payment, the expense is recognised when the payment is made. Otherwise the expense is recognised when the specified criteria have been fulfilled and notice has been given to the Administration.

#### 1.11 Leases

A distinction is made between finance leases and operating leases. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and rewards incidental to ownership of leased assets. An operating lease is a lease that is not a finance lease. In operating leases, the lessor effectively retains substantially all such risks and benefits.

Where an asset is acquired by means of a finance lease, the asset is capitalised at either the fair value of the lease property or, if lower, the present value of minimum lease payments at the inception of the contract and a liability is recognised at the same time and for the same amount.

The discount rate used is the interest rate implicit in the lease. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are expensed on a straight-line basis which is representative of the pattern of benefits derived from the leased assets.

#### 1.12 Foreign Currency Transactions

Transactions denominated in a foreign currency are translated at the exchange rate prevailing at the date of the transaction. Foreign currency receivables are translated at the exchange rate prevailing at reporting date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income. The Administration and the Group has not entered into specific forward exchange contracts during the reporting period.

#### 1.13 Borrowing Costs

All borrowing costs are expensed as incurred.

#### 1.14 Cash

Cash is recognised at its nominal amount. Cash and eash equivalents includes cash on hand and demand deposits in bank accounts with an original maturity of three months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

#### 1.15 Financial Assets

The Administration classifies its financial assets in the following categories:

- a) available-for-sale financial assets; and
- b) loans and receivables.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets are recognised and derecognised upon trade date.

#### Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis.

#### Available-for-Sale Financial Assets

Available-for-sale financial assets are non-derivates that are either designed in this category or not classified in any of the other categories. Available-for-sale financial assets are recorded at fair value. Gains and losses arising from changes in fair value are recognised directly in the reserves (equity) with the exception of impairment losses. Interest is calculated using the effective interest method and foreign exchange gains and losses on monetary assets are recognised directly in profit or loss. When the asset is disposed of or is determined to be impaired, part (or all) of the cumulative gain or loss previously recognised in the reserve is included in the operating result for the period.

#### Loans and Receivables

Trade receivables, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

#### Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period.

Financial assets carried at amortised cost - if there is objective evidence that an impairment loss has been incurred for loans and receivables or held to maturity investments held at amortised cost, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income.

Available for sale financial assets - if there is objective evidence that an impairment loss on an available-for-sale financial asset has been incurred, the amount of the difference between its cost, less principal repayments and amortisation, and its current fair value, less any impairment loss previously recognised in expenses, is transferred from equity to the Statement of Comprehensive Income.

Financial assets carried at cost - if there is objective evidence that an impairment loss has been incurred, the amount of the impairment loss is the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate for similar assets.

#### 1.16 Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

#### Financial Liabilities at Fair Value Through Profit or Loss

Financial liabilities at fair value through profit or loss are initially measured at fair value. Subsequent fair value adjustments are recognised in profit or loss. The net gain or loss recognised in profit or loss incorporated any interest paid on the financial liability.

#### Other Financial Liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

#### 1.17 Financial Guarantee Contracts

Financial guarantee contracts are accounted for in accordance with AASB 139 Financial Instruments: Recognition and Measurement. They are not treated as a contingent liability, as they are regarded as financial instruments outside the scope of AASB 137 Provisions, Contingent Liabilities and Contingent Assets.

#### 1.18 Acquisition of Assets

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition.

#### 1.19 Land, Buildings, Property, Plant and Equipment

#### Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$1,000 which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

#### <u>Revaluations</u>

Following initial recognition at cost, property, plant and equipment are carried at fair value less accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depended upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment was credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

Fair values for each class of asset is determined as shown below:

Asset class	Fair value measurement
Land	Market selling price
Buildings on freehold land	Market selling price and depreciated replacement cost
Property, plant and equipment	Market selling price and depreciated replacement cost

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the Administration using, in all cases, the straight-line method of depreciation. Land is not depreciated.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2012	2011
Buildings on freehold land		10 to 50 years
	3 to 10 years	3 to 10 years
Property, plant and equipment		

#### <u>Impairment</u>

All assets were assessed for impairment at 30 June 2012. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the Administration were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

#### 1.20 Intangibles

The Administration's intangibles comprise acquired software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses, except where the estimated cost of software is less than the \$1,000 threshold and expensed in the year of

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the Administration's software are 2 to 10 years (2011: 2 to 10 years).

All software assets were assessed for indications of impairment as at 30 June 2012.

#### 1.21 Inventories

Inventories held for sale are valued at the lower of cost and net realisable value.

Inventories held for distribution are valued at cost, adjusted for any loss of service potential.

Costs incurred in bringing each item of inventory to its present location and condition are assigned as follows:

- a) raw materials and stores purchase cost on a first-in-first-out basis; and
- b) finished goods and work-in-progress cost of direct materials and labour plus attributable costs that can be allocated on a reasonable

Inventories acquired at no cost or nominal consideration are initially measured at current replacement cost at the date of acquisition.

#### 1.22 Consumable Store

Stocks of consumable stores, which are not held for resale, are expensed in the year of purchase. These stores mainly consist of fuel, chemical supplies, electricity supplies, telecommunication supplies, maintenance materials and stationery.

#### 1.23 Taxation

The Administration is exempt from all forms of taxation except the Goods and Service Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- a) where the amount of GST incurred is not recoverable from the Norfolk Island GST Office; and
- b) for receivables, payables and commitments.

#### 1.24 Deferred lease incentive

Fees relating to linked transactions involving the legal form of a lease are recognised as revenue only when there are no significant obligations to perform, or refrain from performing, significant activities, management determines there are no significant limitations on use of the underlying asset and the possibility of reimbursement is considered remote. Where these criteria are not met, fees are brought to account as revenue or expenditure over the period of respective lease or on a basis which is representative of the patter n of benefits derived from the leasing transactions, with the unamortised balance being held as a deferred lease benefit.

#### 1.25 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the balance sheet but are reported in the relevant schedules and notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

#### 1.26 Presentation of Financial Statements

Administration presents the consolidated Statement of Changes in Equity all owner changes in equity, whereas all non-owner changes in equity are presented in the consolidated Statement of Comprehensive Income.

#### 1.27 Related Entities Disclosure

Related entity values disclosed in Note 4.1 - Sale of goods and rendering of services; Note 7 - Trade and other receivables; and Note 9 - Trade creditors and accruals, reflect business transactions between the Administration and the Territory Authorities.

# Note 2: Events After the Reporting Period

To assist the Administration of Norfolk Island overcome its severe financial difficulties, the Commonwealth of Australia signed a funding agreement on 21 December 2012 with the Administration of Norfolk Island to provide financial assistance for essential services. The total amount of assistance provided was \$4.5 million to be paid in instalments over the 2012-13 financial year, conditional on specific milestones being met each month by the Government of Norfolk Island.

To assist the Administration overcome severe financial constraints, the Commonwealth of Australia extended financial assistance to Norfolk Island through an agreement executed on 22 September 2011. The funding totalled \$13,566,715 (2011: \$5,629,000), of which \$7,000,000 was assigned to terminate services under the Airline Charter Agreement. The agreement included several conditions and deliverables to be met by the Government of Norfolk Island before the funds were transferred. As at 30 June 2012 all conditions and deliverables were met and the full amount of the agreement had been transferred to the Administration.

Note 8A: Loans				
Loan from the Commonwealth of Australia	11,795,683	11,888,832	11,795,683	11,888,832
Total loans	11,795,683	11,888,832	11,795,683	11,888,832
Payable:				,
Within one year	1,200,000	1,200,000	1,200,000	1,200,000
In one to five years	4,800,000	4,800,000	4,800,000	4,800,000
In more than five years	5,795,683	5,888,832	5,795,683	5,888,832
Total loans	11,795,683	11,888,832	11,795,683	11,888,832

The loan from the Commonwealth of Australia includes the Airport Runway Loan of \$11,400,000 (2011: \$11,400,000) and Cascade Loan \$395,683 (2011: \$488,832).

The Airport Runways Loan Act 2003 was assented to on 25 November 2003. This Act binds the Commonwealth of Australia and the Administration of Norfolk Island. The purpose of the Airport Runways loan is to provide funding for the resurfacing of the Norfolk Island runways. The Act authorises that the Administration of Norfolk Island may borrow from the Commonwealth of Australia a total sum not exceeding \$12,000,000. By formal agreement, bi-annual loan repayment instalments of \$600,000 to the Commonwealth of Australia commenced 1 June 2009. The loan is interest free. Subsequent to 30 June 2009, the Commonwealth of Australia has agreed to provide short term financial relief to the Administration of Norfolk Island by varying the Airport Runway Loan agreement. The loan agreement was varied by deferring the loan repayments due in the 2009/10, 2010/11 and 2011/12 financial years and removing the obligation for the Administration of Norfolk Island to make payments into the runways trust fund.

The Cascade Loan Act 1998 was assented to on 16 June 1998. This Act binds the Commonwealth of Australia and the Administration of Norfolk Island. The purpose of the Cascade Cliff loan is to provide funding of the stabalisation of the land described as lot 28 Section 10, Sheet 33 Norfolk Island to ensure public safety. The Act authorises that the Administration of Norfolk Island may borrow from the Commonwealth of Australia a total sum not exceeding \$3,250,000. By formal agreement, bi-annual loan repayment instalments to the Commonwealth of Australia will be sourced from the receipt of rock royalties.

Due to there being no market interest rate for large borrowings on Norfolk Island, the carrying amounts of loans approximate their fair value.

			N. No. of the	
Net contingent assets/(liability)	128,000	128,000	128,000	128,000

The Administration has provided two financial guarantees relating to airline landing charges at Sydney International Airport.

#### Unquantifiable Contingencies

At 30 June 2012, the Administration was involved in a number of legal and criminal proceedings. The Administration has denied liability and is defending the claims. It is not possible to estimate the amounts of any eventual payments that may be required in relation to these proceedings.

#### Significant Remote Contingencies

The Administration and the Group had no significant remote contingencies as at 30 June 2012.

#### Note 12: Related Party Transactions

#### Note 12A: Transactions with Related Parties

Key management personnel (including members of the Norfolk Island Legislative Assembly) were involved in the following arm length transactions:

	Consolidated		Administration	
	2012	2011	2012	2011

#### Note 15E: Credit Risk

The Administration was exposed to minimal credit risk as loans and receivables were cash and trade receivables. The maximum exposure to credit risk was the risk that arises from potential default of a debtor. This amount was equal to the total amount of trade receivables (2012: \$3,642,306 and

The Administration has assessed the risk of the default on payment and had allocated \$231,637 in 2012 (2011; \$133,560) to an impairment allowance account. The Administration manages its credit risk by undertaking various debt recovery techniques.

The Administration and the Group held no collateral to mitigate against credit risk.

Note 15F: Liquidity Risk

The Administration and the Group's financial liabilities are supplier payables. The exposure to liquidity risk is based on the notion that the Administration and the Group will encounter difficulty in meeting its obligations associated with financial liabilities. The Administration is facing financial issues resulting from the economic down turn. The Government of Norfolk Island is currently reviewing its strategies for longer term sustainability in conjunction with the Commonwealth of Australia. The Administration and the Group manages budgets and forecasts to ensure it has adequate funds to meet commitments as they fall due. In addition, the Administration and the Group have policies in place to ensure it made uples due. place to ensure timely payments are made when due.

#### Note 18: Appropriations

# Table 18A: Annual Appropriations (Norfolk Island Act 1979, section 48A)

	2012
	\$
Balance as at 1 July 2011	153,310
New appropriation (from cash flow)	54,705,894
Cash payments	(55,474,492)
Difference	(615,288)
Appropriation Act 2011-12	56,709,110
Cash payments	(55,474,492)
Appropriation under spend	1,234,618
Closing balance as represented by: Amounts transferred	131,650
Amounts lapsed	1,102,968
Total closing balance	1,234,618

The Legislative Assembly of Norfolk Island appropriates money under the *Appropriation Act* 2011-12 to specific cost centres and also to specific line items. The Appropriation Act sets upper limits on expenditure that can only be varied by approvals from the Minister for Finance. Notwithstanding, in the 2011-12 year, eight of 43 performance budget cost centres were over spent by amounts ranging from \$1,000 to \$295,000 and one in excess of \$750,000. For those amounts allocated to specific line items, 60 of 178 allocations were over spent, with 29 of these less than \$1,000, 28 from \$1,001 to \$50,000 and three being over \$150,000. However, as reported in the Note above, the total amount appropriated for the year was underspent.

The above table is prepared on a cash basis.

Comparison figures are not presented as there was no legal requirement for the Administration of Norfolk Island to prepare an Annual Appropriation note in previous years.

	\$	\$	\$	\$
Ex-Gratia Payments				
119 ex-gratia payments were provided for during the reporting period (2011: 237).	188,773	216,694	188,773	216,694

Ex-gratia payments relates mainly to the Duty Drawback Scheme and the Photovoltaic Refund Scheme.

The Duty Drawback Scheme was introduced as part of the Norfolk Island Goods and Service Tax regime introduced on 2 April 2007, and enabled a registered person to claim a refund for the GST paid on stock on hand at 12:00am 1 April 2007 upon which duty has previously been paid. The Duty Drawback Scheme concluded on 30 June 2012.

Under the Photovoltaic Refund Scheme, the Government of Norfolk Island agreed to refund the GST and/or duty paid on the equipment and installations costs of photovoltaic systems installed on Norfolk Island, obtained through the subsidy scheme from the Commonwealth of Australia. The Norfolk Island Photovoltaic Refund Scheme concluded on 30 June 2012.

#### Note 20: Assets Held in Trust

#### Monetary assets

The Administration holds monetary assets under formal trust arrangements. These monies were not available for other purposes of the Administration and were not recognised in the financial statements.

#### Non-monetary assets

The Administration had no non-monetary assets held in trust in both the current and prior reporting period.

#### Norfolk Air Prepaid Ticket Sales

This amount represents Norfolk Air tickets sold for travel past balance date.
