Hints

- Creating a "Voice Relay profile" together with a "Caller Code" will help the relay officer understand any special communications needs you have and help your calls go smoothly.
- Your Caller Code is only needed when you are making a call from a phone number that has not been included in your profile.
- To find out more about getting a Caller Code, how to have your usual call number set up and recording your call preferences, complete the new profile form on the <u>Services Features page</u> on Accesshub.
- You can download the NRS app from the Google Play store (for android phones and tablets) or the Apple App Store (for iPhones and iPads). Just search for NRS or National Relay Service in the search field, select the app and tap to install. The app will look like
