

I'm no accomplished word smith nor am I a man of many words, so I'll make this quick.

For a society to evolve culturally and mentally, it must be faced with new Ideas, new ways of thinking, new ways of looking at art. (and don't be mistaken, video games ARE ART.)

We've seen time and time again what censorship does to a society like Australia.

Cultural stagnation sets in, and where there is stagnation, there is eventually decay, and then death.

For Australia and Australians to move forward ever further towards the future, censorship MUST be abolished, or at the very least, restrained.

For the love of Australia, and all its fine people, find it in your hearts and minds to help us out of this cultural drought and to lay path, towards the future.

Kind regards, Ari Liam Walker.
