

I don't know what has happened to this country, but I am living with large group of people who actually believe that they have free speech while also have literal speech crime laws. Mr Fletcher stated publicly there is a balance for a higher standard of free speech. This is deceitful and incorrect. When did we start living in a country which brainwashes its population into believing they both have speech crime laws AND free speech simultaneously? Every day I am more and more disillusioned with the progression of this country. At least in China and North Korea they know they don't live in a free country, yet in Australia we live under a subtle police state which constantly pushes propaganda that we have freedom and free speech.

Why is it so hard for people in very powerful positions to tell the truth? Why can't you tell the truth? This country doesn't have free speech, we haven't had free speech for decades, It was the original encroachment of our free speech which has given powerful people the courage to introduce more speech crime laws such as the new cyber abuse laws. Please stop lying to people about them having speech crime laws AND free speech at the same time. We lost our free speech, once you cross that line, you get things like the cyber abuse laws. The most sinister thing is the propaganda that it's a balance between this and free speech... There is no balance. We either have 100% free speech or we don't have free speech. What we've seen is an attempt to redefine this so that powerful people can fool Australians into believing they still have free speech. It's insulting, it's really upsetting to me and based on these new laws you can probably twist my words to also go after me. THAT'S NOT FREE SPEECH!

Why is it whenever i bring up the truth with people in power, their inner coward surfaces and I get no reply? If you're so correct, you will be able to shut me down with facts and reality, but the truth is you know I'm right so you cower and hide away knowing that you don't have to respond and you can get away with your harmful propaganda that keeps Australians in a constant state of brainwashing through propaganda.

I'm on an island here, I see the foundation of freedom almost completely destroyed in this country and the people responsible for it are using sinister propaganda to justify it. Why? Why are you doing this to me? Why are you doing this to people in this country? Why can't you be honest? What is it about honesty that makes you run and hide? I can be honest, I'm honest all the time, what has happened to this country??? SOMEBODY PLEASE HELP, I'M AT MY WITS END, I HAVE NO FAITH IN THIS COUNTRY ANY MORE!
