To whom it may concern

Velocity FTTP through Iinet - PLEASE END TELSTRA EXEMPTIONS IN THE SOUTH BRISBANE AREA!!!

Since Covid-19 restrictions commenced I have been working from home and using my computer. I need more mb's to conduct work and when I tried to get a better deal from my provider (iinet) I realised that this could not happen because of Telstra's stronghold in the area and resultant lack of competition!!

This means that I can't access a plan that is affordable!!! The plans on offer in the South Brisbane area are more expensive than those offered on nbn and other regulated networks???

Please end the stronghold that Telstra has in this area to allow for Iinet to offer affordable plans!!!

Thanks in advance,
