6. Continue with the remaining questions in the application, submit and pay the application fee.
7. Should you meet the relevant criteria, you will be provided a concessional RAV entry approval with conditions. Concessional RAV entry approval also serves as import approval.
8. One of the conditions on the approval will be that you send the department a vehicle inspection certificate (VIC) once the vehicle has been modified in accordance with an evidence pack. Send the VIC to the department through the RAWS system.
 - i. If you are making a concessional RAV entry application because you have a vehicle with previous import approval, but you did not receive plate approval before 30 June 2021, you may submit your VIC through the RAWS system at the same time you make your ROVER application.
9. After the VIC has been approved, your vehicle will be entered onto the Register of Approved Vehicles (RAV) and can be provided to the owner or to the market.
